Key

** Students who successfully complete CHEM 1101 Foundations of Chemistry IA and CHEM 1201 Foundations of Chemistry IB and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

Enrolment Advice

Students should be aware of the following general program rules:

- A total of **96 units** are required to complete the Bachelor of Teaching and Bachelor of Science program.
- 18 units of Science courses must be completed for each of Levels I, II, and III of Science courses must be completed for Level III.
- A candidate must complete a major in a discipline as set out in the Bachelor of Science program rules.
- No level 3 course may be used to meet the requirements of more than one major. (For example, if *Research Methods in Environmental Biology III* is used to qualify for a Zoology major, it cannot also be used to qualify for an Ecology Major).
- For approved elective courses, please refer to your [Program Rules](http://www.adelaide.edu.au/calendar/) (<http://www.adelaide.edu.au/calendar/>).
- Enrolment into courses outside of the Study Plan and Enrolment Advice listed above may result in courses not be able to be presented towards your program and could affect your eligibility to graduate.
- Please consult your Program Coordinator <http://www.sciences.adelaide.edu.au/current-students/contacts/coordinators/#ug>
- or contact the Faculty of Sciences Office for advice.
- To commence level 4, students must have completed the requirements of the Bachelor of Science program.

Majors

Students must complete a major from the following list of majors. Study plans for the following majors can be found here:
