10 Big Questions - How did life evolve on Earth?*

Evolving life, reproduction:

Go to http://www.teachersdomain.org/resource/tdc02.sci.life.repro.lp_reproduce/ and follow the story presented by the four videos and the interactive mating game.

This is an excellent resource that helps to visually explain, and give context to, the concepts touched upon in the “Lets Talk about Sex” CYBI article.

This classroom activity was suggested by Aaron Casey – PhD student in the School of Molecular and Biomedical Science, University of Adelaide.
