

Dorothy Wearing Drew Traveling Prize in Agriculture

This Prize has been established by the University as a result of a contribution by Dr Gillian Marshman in memory of her late Aunt, Dorothy Wearing Drew. Dorothy had a long and proud relationship with the Waite Campus and a particular interest in Agriculture. In her early career Dorothy was employed at the Waite as a Laboratory Assistant from 1925-1936 and as a Technical Assistant in Agronomy and Agrostology from 1937 -1938, in fact Dorothy was one of the first women employed at Waite. Despite her career move into the legal sphere, Dorothy maintained her connection with and love for the Waite throughout her lifetime. This prize acknowledges Dorothy's combined love of travel and Agriculture.

The intention of this award is to acknowledge and reward, through a travel prize, one student's contribution to agriculture and student commitment and participation in activities that foster the profile of agriculture academically and within the community.

Prize recipients

Year	Winner
2021	Not Awarded
2020	Not Awarded
