

Bachelor of Science (Natural Resources)
is only available to students who commenced in or prior to 2015

Year 1 / Level I (not more than 30 units)				
S1	# BIOLOGY 1101 Biology I: Molecules, Genes & Cells or # BIOLOGY 1401 Concepts in Biology I	GEOLOGY 1103 Earth Systems	SCIENCE 1400 Science or Fiction I	Approved Level I Science Elective
S2	BIOLOGY 1202 Biology I: Organisms	ENV BIOL 1002 Ecological Issues I	STATS 1004 Statistical Practice I (Life Sciences) [or Semester 1]	Approved Level I Science Elective
Year 2 / Level II				
S1	ENV BIOL 2500 Botany II	SOIL&WAT 2500WT Soil & Water Resources II	SOIL&WAT 2501 Spatial Information and Land Evaluation II	Approved Level II Science Elective
S2	ENV BIOL 2502 Ecology II	Approved Level II Science Elective	Approved Level II Science Elective	Approved Level II Science Elective
Year 3 / Level III (at least 24 units)				
S1	ENV BIOL 3510 Research Methods in Ecology III	SOIL&WAT 3017WT Soil & Water: Management & Conservation III	Approved Level III Science Elective	Approved Level III Science Elective [Semester 1 or 2]
S2	ENV BIOL 3008 Conservation and Restoration III or approved Level III ENV BIOL course	Approved Level III Science Elective	Approved Level III Science Elective	SOIL&WAT 3007WT GIS for Environmental Management III [Summer School] or SOIL&WAT 3020WT GIS for Agriculture & Natural Resource III [Winter School]

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

Key

Core Course	Elective Course
-------------	-----------------

Check [Course Planner](#) or with the Faculty of Sciences Office to ensure you meet the pre-requisites prior to enrolling into this course.

Electives and Broadening

- Please refer to your Program Rules for electives and all other requirements <http://calendar.adelaide.edu.au/>
- For Faculty of Sciences electives, see our website: <http://sciences.adelaide.edu.au/degrees/courses/>
- For information about electives from other faculties, restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

Enrolment Advice

- It is your responsibility to ensure you are correctly enrolled. Enrolment into courses outside of the Study Plan and Enrolment Advice listed could affect your eligibility to graduate.
- A total of **72 units** are required to complete the Bachelor of Science (Natural Resources) program.
- 24 units will usually be completed for each of Levels I, II and III.
- At least 24 units must be completed at Level III.
- You may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#). In doubt consult the Faculty Office for advice.
- If you commenced your program prior to 2014, please refer to the variations to your study plan below.
- Please consult your Program Coordinator <http://www.sciences.adelaide.edu.au/current-students/contacts/coordinators/#ug> or contact the Faculty of Sciences Office for advice.

Bachelor of Science (Natural Resources) is only available to students who commenced in or prior to 2015

Global Experience

The University of Adelaide is committed to offering its students the opportunity to study overseas through a Global Learning Experience. This experience is available in a wide range of degrees and can include student exchange (for either one or two full semesters), study tours, internships and placements. There are many exciting opportunities in Europe, Asia, the Americas, Africa, and Oceania ranging from a few weeks to a full academic year.

The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find Global Learning opportunities available in your study area click [Global Experiences](#).

Variations for Students who commenced in or prior to 2015

- Level III: ENV BIOL 3220 Issues in Sustainable Environments III, has been replaced by SOIL&WAT 3017WT Soil & Water: Management & Conservation III.
- Level III: ENV BIOL 3006 Research Methods in Environmental Biology III, has been replaced by ENV BIOL 3510 Research Methods in Ecology III.

Variations for Students who commenced in or prior to 2014 or 2013

- Complete courses to the value of 24 units at each of Level I, II and III.
- Level I: Not required to complete SCIENCE 1100 Principles & Practice of Science I or SCIENCE 1400 Science or Fiction I, an approved Level I Elective 1 can be undertaken.

Variations for Students who commenced in 2012

- Complete courses to the value of 24 units at each of Level I, II and III.
- Level I: Not required to complete SCIENCE 1100 Principles & Practice of Science I, an approved Level I Elective 1 can be undertaken in lieu.
- Level I: Complete GEOLOGY 1100 Earth's Interior I
- Level II: Complete GEOLOGY 2500 Sedimentary Geology II.
- Level III: Not required to complete ENV BIOL 3006 Research Methods in Environmental Biology III, but students are encouraged to undertake or enrol in an Approved Level III Elective.
- Level III: Not required to complete ENV BIOL 3008 Conservation and Restoration III, but students are encouraged to undertake or enrol in an Approved Level III Elective. .
- Level III: Environmental Geoscience thematic grouping available.
- Level III: The elective, AGRONOMY 3000RW Agroforestry III, is no longer offered.
- Level III: The elective, SOIL&WAT 3010 Remote Sensing III, is attributed to the Environmental Geoscience thematic grouping.
- Level III: The elective, PLANT SC 3030AEX/BEX Integrated Weed Management III, can be presented towards the Conservation & Wildlife Ecology thematic grouping. Please note that this course is no longer offered.
- Level III: The elective, ENV BIOL 3006 Research Methods in Environmental Biology III, can be presented towards the Conservation & Wildlife Ecology thematic grouping.
- Level III: The elective, ENV BIOL 3008 Conservation & Restoration III, can be presented towards the Conservation & Wildlife Ecology thematic grouping.
- Level III: The elective, GEOLOGY 3504 Basins, Sediments and Regolith III, can be presented towards the Environmental Geoscience thematic grouping. Please note that this course is replaced by GEOLOGY 3505 Earth Systems History III.
- Level III: The elective, GEOLOGY 3500 Exploration Methods III, can be presented towards the Environmental Geoscience thematic grouping.
