

Bachelor of Science (Honours)

Cumulative Listing of Student Theses

Earth Sciences

School of Physics, Chemistry & Earth Sciences

*Please Note: *denotes where there is a rock collection with the thesis.*

GARTRELL, H.W. 1903 – The Port Victor Granite.

FERGUSON, A. 1904 –

CONLEY, C.H. 1906 –

HOSSFELD, P. 1925 –

PARKIN, L.W. 1938 –

WARHURST, B. 1938 -

JONES, R.H. 1940 - A petrological study of the Wallaroo and Moonta mining districts.

ROBINSON, E.G. 1941 - A geological reconnaissance of the north-eastern section of County Light.

DALLWITZ, W. 1942 -

SMITH, E. 1942 –

SHEPHERD, J. H. 1942 –

SPRIGG, R.C. 1942 -

GUPPY, D.J. 1943 - Geology of the Hundreds of Goolwa and Encounter Bay, southern South Australia.

WILSON, A.F. 1944 - *

BOWES, D.R. 1945 - An introduction to granitisation and hybridisation at Rosetta Head.

LEWIS, B. 1945 -

WHITTLE, A.W.G. 1945 - Geology of the area 15 miles from Adelaide. Adelaide Hills.*

DARRAGH, P.J. 1946 - Traverse along the South Para from the Devil's Nose to near Gawler.

AYLIFFE, R.W. 1947 - The geological reconnaissance of an area in the northwest of Hundred of Encounter Bay

in the County of Hindmarsh, South Australia.

JOHNS, R.K & KRUGER, J.M. 1947 - The Murray Bridge and Monarto Granites and associated rocks of the metamorphic aureole.*

KING, D. 1947; revised in 1952 - Petrographic notes on the older Pre-Cambrian gneissic complex near Grey Spur, Fleurieu Peninsula.

SPRY, A.H. 1948 - The geology of the metamorphic complex of Houghton and the Humbug Scrub.

RATTIGAN, J.H. & WEGENER, C.F. 1948 - The Palmer Granite and associated granitised sediments.*

HOWARD, P.F. 1949 - A thesis on the basic intrusion of Blinman.*

WYMOND, A.P. & WILSON, R.B. 1949 - A geological reconnaissance of portions of Counties Stanley, Burra, Light and Eyre.*

WILSON, R.B. & WYMOND, A.P. 1949 - An iron deposit near Braemar Station, South Australia.*

MUMME, I.A. 1949 - The geology of part of the Adelaide Series rocks in portions of the Hundreds of Barossa and Moorooroo.

MUMME, I.A. 1949 - Granites of the Tanunda Creek area and its associated sediments.

PARKINSON, K.J. 1949 - Geology of the Yankalilla area.

HOPKINS, B. McD. 1950 - Report on Monarto-Summerfield area.

SKINNER, B.J. 1950 - Geology of the Rapid Bay area. South Australia.

TESTER, B. 1950 - The geology of the Kanmantoo-Harrogate area.

HARMS, J. 1951 - The geology of part of the Cambrai Military Sheet.

KAEWBAIDHOON, S. 1951 - Geology of part of the Springton-Cambrai area.

MARKHAM, N.L. 1951 - Geology of the Springton-Cambrai area.

REYNOLDS, M.A. 1951 - The Cainozoic succession of Maslin and Aldinga Bays.*

ROWLEY, R. 1951 - The gold-sulphide lodes of Norseman.

DAILY, B. 1952 - Stratigraphy and geology of the Noarlunga Basin.*

LESLIE, R.B. & WHITE, A.J.R. 1952 - Geology of portion of the Grand Unconformity north of Broken Hill. NSW.

FORBES, B.G. 1952 - Post-Archean sedimentary succession. Hindmarsh-Inman Valley region.*

MILLER, P.G. 1952 - Geology and structures of the north portion of the Cambrai Sheet.

PRATTEN, R.D. 1952 - Geology and structure of the north portion of the Cambrai Sheet.

WADE, M.J. 1952 - The Tertiary succession of the Christies Beach-Seaford coast.

WOODARD, G.D. 1952 - Stratigraphy and geology of the Willunga Basin.

CHINNER, G.A. 1953 - A preliminary account of the geology of the Mt Kitchener region.*

GRASSO, R. & McMANUS, J. 1954 - The geology of the Callington area.

FORWOOD, P.S. 1956 - The petrological study of Kalgoorlie greenstones.

MUMME, W.G. 1956 - A study, mainly of hematite quartzites from the Middleback Ranges, with some remarks on their magnetic properties.

RISELEY, B. 1956 - The geology of the Burra Mine and district.

BRETT, P.R. 1956 - The geology of an area immediately south of Burra, with particular reference to mineralisation.

McGOWRAN, B. 1957 - Tertiary nautiloids (Eutrephoceras and Cimonina) from South Australia.*

ABELE, C. & McGOWRAN, B. 1957 - The geology of the Cambrian south of Adelaide (Sellick Hill to Yankalilla)*

- RUSSELL, R.T. 1957 - The structure and petrology of rocks close to the Broken Hill lode.
- von der BORCH, C.C. 1957 - The crystalline rocks of York Peninsula, South Australia.
- von der BORCH, C.C. 1957 - The geology of the Macclesfield region, SA.
- FREYTAG, I.B. 1957 - The Victoria Creek Marble, with observations on the geology of an area north-east of Williamstown, South Australia.
- ROCHOW, K. 1958 - The Cambrian geology of the Nepabunna area, South Australia.
- AYERS, D.E. 1959 - Report on the Waterfall Gully-Brook Gully field area.
- BROOKS, C.C. 1959 - Glen Osmond-Brownhill Creek area.
- DALGARNO, R. 1959 - Tertiary sands of the Adelaide region.
- DALGARNO, R. 1959 - Nummulites in the collection of the University of Adelaide.
- HASLAM, C.O. 1959 - Geology of the Crafers-Stirling area.
- EGGLETON, R.A. 1959 - Gumeracha pegmatites.
- MILLS, K.J. 1959 - The geology of the Mt Crawford gneissic granite and its environs.
- COOPER, R.E. 1960 - Recent sedimentation in Gulf St Vincent, South Australia.
- OLLIVER, J.G. 1960 - Geology of Hallett Cove district.
- WILLOUGHBY, D.R. 1960 - The geology and structural analysis of the northern part of Hallett Cove.
- HEATH, G.R. 1960 - The geology of Stonyfell Quartzite in the type area.
- OFFLER, R. 1960 - The structure, petrology and stratigraphy of the Strathalbyn Anticline.
- BROWN, R.G. 1960 - The South Maslin Sand and its relations to the Eocene sequence of St Vincent Basin.
- LLOYD, A.R. 1961 - Foraminifera from the subsurface Miocene of Wreck Island, Queensland.
- MARSHALL, N.J. 1961 - Methods of geochemical prospecting for copper, lead, zinc and nickel, and their application to the Nairne Pyrite horizon.
- VIRGO, D. 1961 - Mineralogy of scapolites. Precise title not available.
- POCOCK, K.J. 1961 - The stratigraphy and palaeontology of Emu Bay Shale.
- PORTER, C.R. 1961 - Geology and geophysics of the Adelaide Plains - Gulf St. Vincent region.
- THIELE, W.K. 1961 - 'The magnetics of the Nairne Pyrite Formation.
- WRIGHT, A.J. 1961 - Detailed mapping of the Noarlunga area. LORD, J.R. 1961 - The geology of the Torrens Gorge.
- PASSMORE, J.R. 1961 - Coorong borehole. Precise title not available.
- KAPELLE, K. 1961 - Report on the Mount Pleasant-Tungkillo area.
- PONTIFEX, I.R. 1961 - Third-Fourth Creeks area, Morialta.
- PONTIFEX, I.R. 1961 - The significance and geology of potash.
- SLADE, P.G. 1962 - A physical and chemical study of a granite-xenolith contact from Granite Island.
- HOSKING, A.J. 1962 - The stratigraphy and petrology of glacial rocks exposed in the Sturt River Gorge and surrounding district.
- LESLIE, W.C. 1962 - Geology of the Delamere area, South Australia.
- ROBINSON, W.B. 1962 - Maastrichtian, Montian and Upper Eocene disconformity from Australia.
- ROBINSON, W.B. 1962 - The geology of the Normanville - Second Valley area.
- DRAYTON, R.D. 1962 - Structural geology of the Rapid Bay area.
- DRAYTON, R.D. 1962 - Interpretation of geophysical surveys in the Willunga Basin, South Australia.
- KIRK, A.C. 1963 - The structural geology of Rapid Bay-Second Valley area, South Australia.
- GEORGE, R.J. 1963 - The geology of the Talisker Mine area.*
- WILDY, R.L. 1963 - The geology of the Mylor-Oakbank area.
- BROWNHILL, M.H. 1964 - The geology and petroleum prospects of the Gambier-Portland Basin.
- MAJOR, R.B. 1964 - The Pound Quartzite at Ediacara and Beltana Hill area.
- MAJOR, R.B. 1964 - Some observations on sedimentary structures in Warrioota Creek, south of Ediacara.
- YONG, S.K. 1964 - The distribution of trace elements nickel, copper, strontium, chromium and manganese in the Mt Davies basic intrusion, South Australia.
- YONG, S.K. 1964 - Geology of the Mt Osmond area, South Australia.
- CHAPPLE, B.E.E. 1964 - The geology of the Willunga Hill-Kuipito area.
- BOWERING, O.J.W. 1965 - The geology and petroleum potential of the Simpson Desert and environs.
- ROWAN, I.S. & COPPIN, R.J. 1965 - A geological and geophysical interpretation of the eastern margin of the Pirie-Torrens Basin near Port Pirie.
- FLEMING, P.D. 1965 - The geology of an area east of Angaston, South Australia.*
- KLEEMAN, J.D. 1965 - Studies on the X-ray diffraction analysis and geochemistry of plagioclase from the Mt Davies igneous intrusion.
- KLEEMAN, J.D. 1965 - Notes on the geologic map 'Geology north of Truro'.
- LEHMANN, P.R. 1965 - The geology and petroleum prospects of the Gippsland area, Victoria.
- LINDQUIST, W.F. 1965 - The geology and ore minerals of Bluff Hill, Southland, New Zealand.
- MASON, M.G. 1965 - Analysis of some Australian ore deposits.
- UTTING, B.S. 1965 - Phosphorite: notes on its nature, origin and current exploration techniques.
- WALTER, M.R. 1965 - Archaeocyatha and the biostratigraphy of the Hawker Group near Wirrealpa, South Australia.*

- WORDEN, J.M. 1965 - A study of two granites and their associated xenoliths.
- WORDEN, J.M. 1965 - An investigation of the geology west of Dutton, South Australia.
- GOODE, A.D.T. & KRIEG, G.W. 1965 - The geology of the Ewarara Intrusion, Giles Complex, Central Australia.*
- BESLEY, R.E. 1966 - A study of the geological setting and mineralisation of the C.S.A. orebodies, Cobar, New South Wales.
- CALLEN, R.A. 1966 - A comparison of the genesis of copper orebodies at Kuyto and Moonta in South Australia, with particular reference to the economic potential of each district.
- GRUND, R.B. 1966 - The glaciene sediments of the Cooper's Creek Basin.*
- JENKINS, R.J.F. 1966 - The fossil crab *Ommatocarcinus corioensis* Cresswell (Goneplacidae) with notes on the extant Australian species and a review of the genus *Ommatocarcinus* White.
- MARLOW, R.B. 1966 - Magnetic study of some Great Australian Basin sediments.
- MILLER, C. 1966 - A geochemical study of pyroxenes from the igneous intrusion, South Davies, NW South Australia.
- STEELE, R.J. 1966 - A gravimetric investigation of the Mt Davies and Gosse Pile intrusions of the Giles Complex.
- THRELFALL, W. 1966 - A study of porosity in sediments related to depth of burial. WRIGHT, R.G. 1966 - The geology and mineralisation of the Mt Grainger Goldfield.*
- ZWIGULIS, M. 1966 - Geochemical prospecting at Callawonga Creek.
- BROOKE, W.J.L. 1966 - An investigation of the Mutooroo Copper Mine, South Australia.
- PLEDGE, N.S. 1966 - The application of fossil shark's teeth to biostratigraphy.
- PREISS, W.V. & SWEET, I.P. 1966 - The geology of the Depot Creek area, Flinders Ranges.
- BROTHERTON, R.A. 1967 - A metamorphic study of the Marino Group phyllites, Delamere and Sellick Hill sections, with special reference to the iron oxides.
- CONNARD, P.D. 1967 - The Cambrian stratigraphy of Kangaroo Island, in relation to the hydrocarbon potential of O.E.L.24 (St Vincent Gulf), South Australia.
- DIXON, H.W. 1967 - A quantitative classification of chemically weathered rock substance.
- LIVERTON, T. 1967 - The petrology of a uranium bearing adamellite at Crocker Well, Olary Province, South Australia.
- SVALBE, A.K. 1967 - The petrology, mineralogy and provenance of the Upper Cretaceous(?) to Upper Eocene sediments in the Bass Basin.
- WARD, M.A. 1967 - A study of two diamond drill sections illustrating the geological setting and mineralisation at Kambalda, Western Australia.
- MILNES, A.R. 1967 - A petrological study of the Encounter Bay Granites.*
- CURNOW, C.N. & LOOS, M. 1967 - Mineralogical, environmental and geochemical studies of Coorong lagoonal sediments, South Australia.
- BARCLAY, C.J. 1967 - The petrology and geochemistry of some amphibolites from the Middleback Range area.*
- GRAY, C.M. 1967 - The geology, petrology and geochemistry of the Tiezi metanorthosite.*
- McKIRDY, D.M. 1967 - A preliminary investigation of the alkane hydrocarbon content of two Australian sedimentary rocks.
- McKAY, K.G. 1968 - A geochemical and mineragraphic study of the copper mineralisation at Mt Coffin, South Australia.
- PAIN, A.M. 1968 - A study of a metadolerite dyke swarm in the Woodside district, South Australia.*
- PORTER, T.M. 1968 - The structure of the open cut area, Mary Kathleen, Queensland.
- SAUERTEIG, K.G. 1968 - The sediments of Capricorn No 1A, Queensland, 800'-5,609'.
- THOMAS, I.L. 1968 - Geochemistry of the carbonate rocks associated with the Puttapa zinc deposit, North Flinders Ranges, South Australia.
- WESTOFF, J.B. 1968 - Regional geophysical investigations, Lake Frome area, South Australia.
- WHITTLE, A.P. 1968 - The Pretty Hill Sandstone of the Otway Basin, Australia: a study of provenance.
- WILLIAMS, A.F. 1968 - The origin and growth of oolites and a study of three types of oolites from Northern Australia.
- ANFILOFF, W. 1968 - Gravity stripping in the Moomba-Gidgealpa gasfield area.
- ASKINS, P.W. 1968 - Geochemical exploration around the Aclare Mine and mineral deposits of the surrounding region.
- BARNES, L.C. 1968 - The petrology and geochemistry of some high grade metamorphic rocks from the Mt Davies-Giles region, Central Australia.
- FROST, M.F. 1968 - A reconstruction of Permian depositional environments, Carnarvon Basin, Western Australia.
- GLOVER, R.D. 1968 - Base metal distribution in carbonate rocks of the Western Flinders Ranges.
- IRELAND, T.J. 1968 - Geologic investigation and economic appraisal of the Himalaya North anomaly at Broken Hill, New South Wales.
- LANGSFORD, N.R. 1968 - Sedimentology of recent glacial marine sediments, Ross Sea, Antarctica.*
- FARRELL, B.L. 1968 - A beach sand study of the Fleurieu Peninsula.
- FEHLBERG, B. 1968 - Ultramafic xenoliths from basaltic rocks of southern Australia.
- JONES, M.T. 1968 - The structural geology of the South Middleback Range.
- BLIGHT, D.F. 1969 - The geology, petrology and geochemistry of an area south of Tollu, Western Australia.*
- BAMPTON, K.F. 1969 - A comparison of the Upper and Main Lodes on the northern leases of North Broken Hill Ltd, Broken Hill, New South Wales.

- BRIDGES, M.C. 1969 - Faults in 1100 orebody, Mt Isa Mines.
- CHENOWETH, L.M. 1969 - The geochemistry and geology of the Lancefield Gold Mine, Laverton, Western Australia.
- CLIFTON, T.M. 1969 - The geochemical and mineralogical variations of the host rocks in relation to mineralisation, Chillagoe, Queensland.
- CRASE, N.J. 1969 - An investigation of some of the younger basic and ultra-basic rocks to the west of Broken Hill, New South Wales.
- HARLEY, D.N. 1969 - The mafic and ultramafic intrusives of the Fraser Range, Western Australia.
- HASLETT, P.G. 1969 - The Cambrian geology north of the Wirrealpa Diapir, Flinders Ranges, South Australia.
- IVEZICH, M.M. 1969 - A geophysical investigation of the Mt Beevor shear zone and the Nairne Pyrite Member.
- LARKING, A.N. 1969 - Acid rocks and their relationship to the gold mineralisation at Norseman, Western Australia.
- MASTINS, H. 1969 - Some applications of Xray mass absorption in mineral and rock analysis.
- NETZEL, R.K. 1969 - Trace tin distribution in the Ardlethan Granite, New South Wales.
- PIERCE, P.R. 1969 - Cambrian geology south of the Wirrealpa Diapir, Flinders Ranges, South Australia.
- POOLE, L.E. 1969 - The structural geology of an area south of Kanmantoo, South Australia.
- REES, B.V.L. 1969 - The geology of Panguna copper deposit, Bougainville, Territory of Papua & New Guinea.*
- REID, R.B. 1969 - A survey of Australian barite.
- ROONEY, P.W. 1969 - An examination of the distribution of minor elements between co-existing hornblende and biotite from an area east of Springton, South Australia.*
- SCHMIDT, B.L. 1969 - The mineralogy and chemistry of the Caralue, Mundrabilla and Witchelina meteorites.
- WILLIAMS, R.E. 1969 - An environmental study of base metal sulphide mineralisation, Eulaminna, Western Australia.
- BELL, T.H. 1969 - The stages in development of slaty cleavage across the Nackara Arc of the Adelaide geosyncline.
- BOWDEN, P.R. 1969 - Geology of the Tollu area, Western Australia.*
- FREARS, R.A. 1969 - Petrology of the gneisses and associated amphibolites from Sleaford-Fishery Bay, southern Eyre Peninsula.*
- SMITH, P.C. 1970 - The geology of the Hinckley Ranges, Western Australia.
- BRIESE, E.H. 1970 - The geology, petrology and geochemistry of a layered intrusion at Carr Boyd Rocks, Western Australia.
- DREW, G.J. 1970 - A geophysical investigation of the southern Middleback Range area.
- HATCHER, M.J. 1970 - The geology of the Mt Chambers Mine region, northern Flinders Ranges.
- HILL, R.J. 1970 - The atomic structure of scholzite from a small occurrence 1 mile east of Reaphook Hill, central Flinders Ranges.
- HOLT, G.E. 1970 - Geology of the Paratoo Diapir, South Australia.
- KOPCHEFF, J.T. 1970 - A geophysical interpretation of the western Murray Basin, South Australia.
- LIPPLE, S.L. 1970 - The geology of Tar Val near Meekatharra, Western Australia, and the weathering of ultramafics.
- MORIARTY, K.C. 1970 - The clay mineral distribution in the Southern Ocean between Australia and Antarctica.
- PRIDMORE, D.F. 1970 - The Edwin Nickel Shoot (located 25 miles SSE of Kambalda at 31°31'S and 121°50'E) - results of VLF electromagnetic, induced polarisation, magnetic and gravity surveys.
- SIBENALER, X.P. 1970 - Geochemical investigations at the Forktree prospect, Normanville, South Australia.
- SMITH, P.B. 1970 - A geochemical study of Diemal's Find, copper-zinc prospect, south of Lake Barlee in Western Australia.
- TAYLOR, R.J. 1970 - The geophysical interpretation of some gravity and magnetic anomalies in the Middleback Ranges area of South Australia.
- THOMPSON, R.L. 1970 - A study of the mineralisation at the Kitticoola Copper Mine, Palmer, South Australia.*
- WIGGLESWORTH, K.F. 1970 - The geology of the Mt Frome region, Flinders Ranges, South Australia.
- WATMUFF, I.G. 1970 - Some local aspects of the geology, mineralogy and geochemistry associated with the Edwin Shoot, 60 miles south of Kalgoorlie, Western Australia.
- HENSTRIDGE, D.A. 1970 - The petrology and geochemistry of the upper south-east granites, South Australia.*
- COIN, C.D.A. 1970 - A study of the petrology and geochemistry of the granulite facies terrain near Amata, Musgrave Ranges, north west South Australia.
- COBB, M.A. & MORRIS, B.J. 1970 - The Weekeroo amphibolite.
- MOUNT, T.J. 1970 - Geology of the Mt Chambers Gorge region, Flinders Ranges, South Australia.*
- PRICE, D.G. 1970 - Geophysical investigations of the northern Middleback Range area, South Australia.
- HONE, I.G. 1970 - Interpretation of airborne and ground magnetic surveys with detailed susceptibility measurements at Tennant Creek, Northern Territory.
- DAVIDSON, J.E. 1970 - A petrological and geochemical study of three diamond drill holes through the Mt Windarra ultramafics and zone of nickel mineralisation.
- THOMAS, A.P. 1970 - Joint analysis and hydrothermal alteration study at Stannary Hills, north Queensland.

- FRITH, N.H.J. 1971 - Magnetism of the Arkaba Diapir near Hawker, South Australia.
- HALL, J.S. 1971 - A comparative biogeochemical investigation in the semi-arid/arid zone of Western Australia.
- HARRIS, K.L. 1971 - The application of ion-exchange chromatography to the extraction of rare-earth elements from samples of granitic rock.
- HENSCHKE, M.A. 1971 - A combined geophysical study of basement structure in the Gambier Embayment, Otway Basin.
- JACOBSON, E.P. 1971 - A structural interpretation of a gravity and magnetic survey over greenstone rocks at Mt Windarra in Western Australia.
- McCLAY, K.R. 1971 - Interpretation of gravity and magnetic anomalies over the Jimberlana Norite, Norseman, Western Australia.
- MORONY, G.K. 1971 - Gravity and magnetic investigation of the Permian valleys of Fleurieu Peninsula, South Australia.
- PECANEK, H.T. 1971 - A magnetic and gravimetric interpretation of the western margin of the Murray Basin.
- ROBERTSON, D.J. 1971 - An analytical migration of picked seismic sections.
- WATERHOUSE, J.D. 1971 - The geology of the Ethudna and Walparuta Mine areas, Olary Province, South Australia.
- HARRIS, R.F. 1971 - The geology of Permian sediments and erratics, Troubridge Basin, South Australia.*
- HOFF, R.J. 1971 - Structural and petrological investigations in the metasediments near Centennial Mine, Broken Hill region.*
- MARLOW, P.C. 1971 - Detailed structural and petrological mapping of the Willyama metasediments in the Sundown area at Broken Hill, New South Wales.
- BARNES, R.G. 1971 - Structural and petrological investigations in the Mt Gipps area, Broken Hill, New South Wales.
- TOTTEFF, S. 1971 - Cambrian geology of the Druid-Chase region, Flinders Ranges, South Australia.
- ROSS, A.F. 1971 - Studies of Broken Hill geology: 1. Relationships between dykes and sulphide ore of the Broken Hill Lode; 2. Structural elements in the Northern Leases.*
- ROBERTS, D.C. 1971 - Geophysical investigations in the Broken Hill area, New South Wales.
- HARVEY, P.D. 1971 - A study of the cell dimensions of feldspars, with particular reference to the determination of potassic alkali feldspars.
- HARVEY, P.D. 1971 - The geology and mineralisation of the Eurelia copper prospect.
- GABRIEL, C.M. 1971 - The geology of the Emu Bore area, Flinders Ranges, South Australia.
- GAUNT, F.G.M. 1971 - The geology of the Kempes Bore area, Flinders Ranges, South Australia.
- MICHELMORE, T.R. 1971 - The geology of copper mineralised areas in the Olary Province.
- GEHLING, J.G. 1971 - The geology of the Reaphook Hill area, Flinders Ranges, South Australia.
- JOHNSON, K & OFFE, L. 1971 - The geology, petrology and geochemistry of the Barwidgee Ironstone Formations, Western Australia.
- FORD, C.H. 1971 - The Parachilna Formation and its trace fossils.*
- CARVER, R.N. 1971 - A detailed investigation of the soil geochemistry and mineralogy at Black Rabbit, Western Australia.
- WATCHMAN, A.L. 1971 - A study of two geological sections and the petrology and geochemistry of the ultramafic rocks - Mt Windarra orebody, Western Australia.*
- STOLZ, G.W. 1971 - The petrology, mineralogy and geochemistry of the nickel ore zone and host ultramafic rocks at Scotia, Western Australia.
- BAXTER, D.R. 1971 - The petrology and geochemistry of an ultramafic body near Ravensthorpe, Phillips River Goldfield, Western Australia.
- FINLAYSON, B. 1971 - Radiometric studies of the Willyama Complex, near Olary, South Australia.
- DREW, G.J. 1971 - A geochemical study of the weathering zone at Mt Windarra, Western Australia.
- DUKE, R.W. 1972 - Velocity-depth relationships in the Otway Basin and their use in basin analysis.
- GILES, S.D. 1972 - Stratigraphic investigations of Tertiary sequences, western Murray Basin, South Australia.
- FOSTER, C.B. 1972 - Stratigraphy and palynology of the Permian at Waterloo Bay, Yorke Peninsula, South Australia.
- MAUGHAN, D.M. 1972 - Combined geophysical investigations in the Fleurieu Peninsula, South Australia.
- SMITH, R.J. 1972 - The determination of basement structure using gravity and seismic methods.
- VENZ, M.I. 1972 - Depth analysis of magnetic data and associated problems.
- WICKS, S.P. 1972 - Geology of part of the basement inlier northeast of Mt Compass.
- DAVIES, M.B. 1972 - The geology and petrology of an Archaean inlier south of Normannville.
- DAVIES, M.B. 1972 - The geochemistry of the 'Houghton' granulite.
- HEASLIP, J.E. 1972 - Review of the geology of the Mt Magnificent area.
- McEWIN, A.J. 1972 - Geology and petrology of part of the Archaean Inlier northeast of Yankalilla, Fleurieu Peninsula.
- HAMDORF, K.R. 1972 - The geology of the area east of Point Pass, South Australia, with emphasis on the Sturtian glacials.
- LOVE, R.J. 1972 - The geochemistry of the Tapley Hill Formation and the Sturt Tillite, near Darlington, South Australia.
- MORRIS, L.J. 1972 - The geology of the Eudunda-Hansborough area of South Australia with emphasis on the Pepuarta Tillite Formation of Upper Precambrian age.
- COTTRELL, D.L. 1972 - Structural and petrological study of the area west of the Parnell Mine, Broken Hill, New South Wales.*

PARKER, A.J. 1972 - A petrological and structural study of a portion of the Olary Province west of Wiperaminga Hill, South Australia.*

ROBERTSON, R.S. 1972 - Petrological and structural investigation of Willyama Complex rocks, Wiperaminga Hill area, South Australia.

DRUMMOND, A.J. 1972 - The geology of the Australia Plains area, northern Mt Lofty Ranges, South Australia. CURTIS, D.D. 1972 - A study of barium feldspars from Broken Hill, New South Wales.

CURTIS, D.D. 1972 - Structural investigations in metasediments in the northern leases, Broken Hill, New South Wales.

BARKER, L.R. 1972 - Structural and petrological investigations into the Willyama Complex near Corruga at Broken Hill, New South Wales.*

JENKE, G.P. 1972 - Geophysical investigations in the Rupie Mine area, Broken Hill, New South Wales.

WOOD, R.J. 1972 - The interpretation of ground magnetic and gravity data and its correlation with the geology in the Broken Hill area, New South Wales.

SIMON, I.K. 1972 - A geological and petrological investigation of the massive dunite members of the Scotia ultramafic belt.

NENKE, J.A. 1972 - Geochemistry and mineralogy of the Nairne Pyrite deposit, Brukunga, South Australia.

LEMON, N.M. 1972 - A sedimentological approach to the geology of the Corunna area, South Australia.

MILTON, D.W. 1972 - An investigation of the siliceous 'cap-rocks' in the vicinity of and over the Scotia nickel sulphide deposit, Western Australia.

LEE, M.F. 1972 - A fold study of the Lady Loretta area, Northwest Queensland.

BURFORD, B.J. 1972 - Studies in Broken Hill geology: 1. Zoning in B Lode, Broken Hill; 2. Structural elements in banded sillimanite gneiss in an area west of Stephen's Creek Reservoir.

LEE, S.D. 1972 - Structural and petrological investigations of the Willyama Complex in the Parnell Creek-

Maybell Homestead area, Broken Hill region, New South Wales.*

HASELGROVE, K.D. 1972 - The value of magnetic and electrical resistivity logging of diamond drill core from the Mt Keith nickeliferous serpentinite in Western Australia.

EMMETT, B.D. 1973 - A seismic interpretation of the Panda-Boxwood area in the south-western Cooper Basin.

GRANSBURY, R.J. 1973 - Gravity and laboratory induced polarisation investigations in the Eurelia area, South Australia.

HAGUE, R.L. 1973 - The electrical resistivity method in a study of the basement topography and geohydrology of a section of the Barossa Valley.

HORSFALL, C.L. 1973 - Interpretation of aeromagnetic and ground magnetic data over the Houghton Inlier, South Australia, as an aid to geological mapping.

JANSEN, J.A.B.M. 1973 - Resistivity and magnetic techniques as used in depth to bedrock determinations in the Barossa Valley, South Australia.

KEENIHAN, S.L. 1973 - Sonic log application for the determination of geopressures in the Cooper Basin.

MIDDLETON, M.A. 1973 - A gravity survey across the Mt Lofty Ranges, South Australia.

MORIARTY, N.J.J. 1973 - Geological and resistivity correlations with the Burra Input Survey.

BUCKHORN, I.J. 1973 - Geological setting of copper mineralisation in the Mt Fitton south area of the Mt Painter Province.*

MORTIMER, G.E. 1973 - The geology of portion of the Precambrian Lower Glacial sequence in the Mt Shanahan area of the Mt Painter region, South Australia.*

YOUNG, D.I. 1973 - The geology of the basement complex north-west of Mt Neil, Mt Painter Province.*

LINDSAY, C.C. 1973 - Stratigraphy and sedimentology, Mt Saturday area, northern Flinders Ranges, South Australia.*

BELPERIO, A.P. 1973 - The stratigraphy and facies of the Late Precambrian

Lower Glacial sequence, Mt Painter, South Australia.

ASHTON, S.M. 1973 - The geology and geochemistry of Adelaidean sediments, Mt Painter Province, South Australia, with special emphasis on the Lower Umberatana Group.*

EBERHARD, B.A. 1973 - The geology of the Yudnamutana area, north Flinders Ranges, with special reference to the geochemistry of the mineralisation and of the Wooltana Volcanics.

AMBROSE, G.J. 1973 - The geology and geochemistry of Adelaidean sediments, Mt Painter Province, South Australia, with emphasis on the Upper Umberatana Group.*

HULL, K.G. 1973 - The Lower Cambrian, Puttapa Syncline, Flinders Ranges, South Australia.*

BARRATT, R.M. 1973 - A structural and geological investigation of the area east of Acacia Vale Homestead, Broken Hill, New South Wales.

SCHILLER, J.C. 1973 - Structural and petrological investigations of the Acacia Valley HS - Daydream Smelter area, eastern Barrier Range, Willyama Complex, New South Wales.*

EVELE, V.R. 1973 - Susceptibility studies of some amphibolites from the Broken Hill region, New South Wales.

WILKIE, J.C. 1973 - A statistical analysis of fractures in the area northeast of Mt Lofty, South Australia.

KINSMAN, J.E. 1973 - Stratigraphic distribution of southern Australian Tertiary Marsupiate Echinoids with special reference to the St Vincent Basin.

DAVEY, B. 1974 - An x-ray diffraction survey of the Late Cretaceous and Early Tertiary 'glaucinitic' pellets.

DEPERS, A.M. 1974 - Sedimentary facies at Yatala Harbour and the geochemical comparison with Pt Pirie sediments, Spencer Gulf, South Australia.

HEATH, R.S. 1974 - Permian foraminifera in the Arkaringa Basin, and their environmental significance.

- JAMES, I.W. 1974 - Investigations into relations between the dihydrate phosphate minerals of Al and Fe.
- RIDGE, K.J. 1974 - Studies on stream-sediment sampling for a regional geochemical survey in the Torrens Valley.
- CLARK, P.T. 1974 - Fourier analysis of the magnetic profiles.
- CLARK, P.T. 1974 - The microclosure problem.
- COCKSHELL, C.D. 1974 - A gravity survey over the Yan Yarrrie barytes deposit, South Australia.
- HAWKE, D.V. 1974 - Structural control of subsurface chemical weathering in limestones, south-eastern district of South Australia.
- JUERS, R.J. 1974 - The application of geostatistics to orebody evaluation.
- MITCHELL, A.B. 1974 - An evaluation of a gradient/simultaneous equation method for the least squares computer interpretation of magnetic anomalies due to dykes.
- McINERNEY, P.M. 1974 - Interpretation of a major Bouguer gravity anomaly in the western Murray Basin.
- STALTARI, G. 1974 - Aeromagnetic interpretation of the Kanmantoo area, South Australia.
- WAKE-DYSTER, K.D. 1974 - An investigation of the magnetic characteristics of the Black Hill Norite, western Murray Basin.
- PEDLER, M.E. 1974 - A study of the "Greenstone" basement at Mt Isa Mines, Queensland.
- MOONEY, M.D. 1974 - A structural and lithological study of the Willyama Complex in the area south of Centennial Mine, Broken Hill district, New South Wales.*
- MOONEY, P.A. 1974 - Structural and petrological investigations of the Willyama Complex in the Parnell Dam area, Broken Hill region, New South Wales.*
- BALKAU, J. 1974 - Investigations of the quartz gahnite lode horizon in the Centennial Mine area, Broken Hill region, New South Wales.*
- HILLAM, J.F. 1974 - 'The quartz gahnite lode horizon in the area south of the Nine Mile Mine, Broken Hill, New South Wales.*
- MONAGHAN, J.G. 1974 - The structural geology of the Rockwell Hotel area, Broken Hill region, New South Wales.*
- BAOHM, C.W. 1974 - The trace element geochemistry and reappraisal of the geology of the Iron Baron iron ore deposit in the Middleback Ranges.
- CARR, S.G. 1974 - The geology and geochemistry of the Sherlock Bay nickel-copper deposit, Western Australia, with special emphasis on the origin of the mineralisation.
- GILES, C.W. 1974 - The ultramafics of the Broken Hill district and their associated mineralisation.*
- PLUMMER, P.S. 1974 - The stratigraphy, sedimentology and palaeoenvironment of the Late Precambrian Umberatana Group in the Mt Remarkable - Alligator Gorge area, South Australia.
- ROWETT, S.L. 1974 - 1. The petrology of the Tintinara and Coonalpyn granites with reference to the structural state of alkali feldspars. 2. Geological mapping of the Koonunga area.*
- MCCARTHY, P.J. 1974 - Interpretative stratigraphy and sandstone petrography of the Burra Group in the Pt Germain area.
- ANDERSON, C.G. 1975 - 1. A mis-a-la-masse investigation in the Little Broken Hill area, New South Wales. 2. Application of gravity surveying in the Galena Hill area, New South Wales.
- HANSEN, A.K. 1975 - Gravity and magnetic interpretation in the Sedan-Cambrai region of the Murray Basin.
- KIRK, R.B. 1975 - Seismic refraction surveys in the Palmer and Sedan areas, South Australia.
- SANTUL, J. 1975 - The geology, geochemistry and mineralisation of the South Windarra nickel ore deposit, Western Australia.
- ANDERSON, J.A. - Structural and strain analysis of the nose of the Myponga-Little Gorge Inlier, Fleurieu Peninsula, South Australia.*
- JABLONSKI, H. 1975 - Late Precambrian geology of the Warren-Buckaringa Gorge area, Flinders Ranges, South Australia.*
- JAMES, B.A. 1975 - The stratigraphy, sedimentology and structural geology of the Leigh Creek coal measures, South Australia.*
- DUTTON, W.G. 1975 - Description and explanation of a flight of river terraces on Hookina Creek in the Flinders Ranges, South Australia.
- GRAVESTOCK, D.I. 1975 - A study of Archaeocyatha (Class Regulares Vologdin, 1937) from the Wilkawillina Limestone near Wirrealpa Mine, Flinders Ranges, South Australia.*
- RINGENBERGS, W.H. 1975 - The petrology, genesis and alteration of aluminosilicate bearing schists and gneisses at Springfield, near Williamstown, South Australia.*
- MILLER, R.K. 1975 - The Late Precambrian geology of the Wyacca Bluff-Buckaring Gorge area, Flinders Ranges, South Australia.
- SEARSON, G.J. 1975 - Fluid inclusion studies on igneous rocks of the Mt Painter area, South Australia.
- FANNING, C.M. 1975 - Petrology, structure and geochronology of some high grade metamorphic rocks at Fishery Bay and Cape Carnot, southern Eyre Peninsula.
- WATERHOUSE, J.R. 1975 - Fluid inclusion study of the Beltana zinc ore deposit, north Flinders Ranges, South Australia.
- FLOOK, M.M. 1975 - The geology and geochronology of high grade metamorphic rocks at Kirton Point and Cape Dorington (southern Eyre Peninsula).
- WHITEHEAD, B.R. 1975 - The structure and the petrology and geochemistry of the migmatites and igneous rocks of the Reedy Creek area near Palmer, South Australia.
- DOCKING, K.S. 1975 - A fluid inclusion and sulphur isotope study of the copper mineralisation of the Daly-Yudnamutana mining area, Mt Painter, South Australia.*

HEDLEY, D.J. 1975 - An environmental and statistical analysis of the Ediacara assemblage.

MILLS, A.A. 1975 - An induced polarisation survey and study of associated masking and coupling effects over the western margin of the Murray Basin.*

JORDAN, J.E. 1976 - The geological setting of base metal anomalies in basal Burra sediments - Adelaide region, South Australia.

SPRY, P.G. 1976 - Base metal mineralisation in the Kanmantoo Group, South Australia, the South Hill, Bremer and Wheel Ellen areas.

ROBERTS, R.H. 1976 - Structure and petrology of basement metasediments and granites in the Mt Painter Inlier.

HANNAH, M.J. 1976 - Foraminiferal analysis of a Late Cretaceous section of the Ninetyeast Ridge, eastern Indian Ocean.*

GOLIN, V.L. 1976 - Structural analysis and microfabric development of the gneisses east of Marion Bay, southern Yorke Peninsula.

CLARKE, N.G. 1976 - Structural analysis of the Pt Neill mylonite zone and its country rocks, Pt Neill, South Australia.*

TURNER, G.R. 1976 - The stratigraphy, structural geology and metamorphism of the Calanna Beds and the base of the Burra Group in the Arkaroola area, South Australia.

WEBB, R.J.A. 1976 - A fluid inclusion and sulphur isotope study of the Ag-Pb-Zn mineralisation in the Rapid Bay Marble, South Australia.

BURNETT, P.J. 1976 - Structure and microfabrics of the Yudnamutana Gorge area, Mt Painter Complex, South Australia.

PEDLER, A.D. 1976 - The geology and geochronology of high grade metamorphic rocks between Point Yorke and Meteor Bay, southern Yorke Peninsula.

MITCHELL, M.C. 1976 - A geostatistical study of Kanmantoo Mines.

MAYER, T.E. 1976 - A fluid inclusion study of six mineral deposits in

Adelaidean sediments north-west and south of the Mt Painter Block, South Australia.

FRENCH, D.G. 1976 - Structural, petrological and geochemical aspects of the Potosi Gneiss and Lower Amphibolite at Broken Hill, New South Wales.*

GAULD, T.D. 1976 - Trace fossils and the base of the Cambrian at Angepena, northern Flinders Ranges, South Australia.

LOCKE, M.S. 1976 - Analysis of F-400 airborne EM data and ground investigations in the Booleroo-Laura district of South Australia.

LOVE, D.N. 1976 - Kriging - a highly variable deposit.

PACKER, A.N. 1976 - Robustness of estimation under changes in the variogram.

SMITH, B.L. 1976 - Laboratory-induced polarisation and ore petrology of rock specimens from the Kanmantoo ore environment.

BOTTRILL, R.S. 1976 - A study of the relations between adamite, olivenite and related minerals.

ALLEN, R. 1977 - Metamorphic phase relationships in the Kanmantoo.*

LINK, P.K. 1977 - Facies and palaeogeography of Late Precambrian Sturtian glacial sediments, Copley area, northern Flinders Ranges, and in the Sturt Gorge near Adelaide, South Australia.*

WINSOR, C.N. 1977 - A study of fractures in the mid-north of South Australia.

BUBNER, G.J. 1977 - A detailed gravity and magnetic investigation of southern Iron Duke, south Middleback Ranges.

WHITE, L.E. 1977 - Gravity and magnetics, Eyre Peninsula.

WHITING, T.H. 1977 - The application of the input AEM system to exploration for iron ore on Eyre Peninsula, South Australia.

BLIGHT, P.G. 1977 - Uraniferous metamorphics and 'younger' granites of the Paralana area, Mt Painter Province, South Australia: a petrographic and geochemical study.

HORR, G.M. 1977 - Precambrian spilites and the Pandurra Formation of the Stuart Shelf, near Port Augusta, South Australia.

BONE, Y. 1978 - The geology of Wardang Island, Yorke Peninsula, South Australia.

VNUK, M.F. 1978 - Aspects of the geology of the Stuart Creek area, north of Lake Torrens, South Australia.

GABELL, A.R. 1978 - Geochemical and structural investigation of Willyama Complex rocks, South Kalabry Station, South Australia.

WORONTSCHAK, J. 1978 - Foraminiferal and sedimentological studies of the Chinaman Creek area, south of Port Augusta.

CIRCOSTA, G. 1978 - The stratigraphy of the Sturtian glaciogene and ferruginous sediments, southeast of Mattawarrangala Station, Central Flinders Ranges, South Australia.*

HOCHMAN, M.B.M. 1978 - Geochemical investigations in the Mt Bunday area.*

RICHARDSON, S.M. 1978 - Structural analysis of the gneisses at Corny Point, southern Yorke Peninsula.

MARKS, P.G. 1978 - The Gunsight uranium-copper prospect, Mt Painter Province, South Australia: a study of the mineralisation incorporating petrographic and geochemical data.*

BREWER, A.M. 1978 - A geochemical study of the mineralisation in the Parabarana copper prospect, northern Flinders Ranges, South Australia.

NEW, D. 1978 - Stratigraphic and structural relationships across part of the western limb of the Yednalue Anticline, central Flinders Ranges, South Australia.

IREDALE, J.A. 1978 - Frequency analysis of potential field data: some problems and proposed solutions.

NICOL, G.J. 1979 - The Tertiary geology of the Coward Cliff area, between Lake Eyre and Lake Torrens, South Australia.

RAMSAY, R.R. 1979 - Stratigraphy, structure, mineralogy and comparative geochemistry of Iron Duke, south Middleback Ranges, South Australia.

- FLIS, M.F. 1979 - Geophysical mapping of a stratigraphic trap, northern Adelaide Plains, South Australia.
- GROPE, S.J. 1979 - Investigation of a section of the eastern Officer Basin-Musgrave Block boundary by means of seismic, gravity and magnetic interpretation.
- KLOTZ, R. 1979 - An account of higher order move-out terms using seismic ray modelling.
- MORA, P.R. 1979 - Two dimensional seismic modelling by the ray tracing technique and its use regarding the study of the time-geometry of structures encountered in hydrocarbon exploration and velocity anomalies produced by ray bending through complicated sub-surface geometrics.
- STEPHENSON, P.N. 1979 - Geophysical investigation of the Poldia Trough, South Australia.
- MANNING, R.A. 1979 - Host rock petrology and geochemistry of the Westmoreland uranium deposits, northwestern Queensland.
- HEITHERSAY, P.S. 1979 - Sedimentology of the Burra Group in the East Rooks Area, northeastern Willouran Ranges, South Australia.*
- COWLEY, W.M. 1979 - Petrochemistry of the Mt Jope volcanics and a mafic-ultramafic sill in the Fortescue Group near Mt Turner, Hamersley Ranges, Western Australia.
- FAEHRMANN, P.A. 1979 - Mineralogy and environmental aspects of the Blanche Point Formation, Willunga Embayment, South Australia.*
- SCIBIORSKI, J.P. 1979 - A review of the Australian fossil heart-urchins *Lovenia forbesii* (Tenison Woods) and *Lovenia woodsii* (Echinoidea; Spatangoida).*
- LONERGAN, T.P. 1979 - Aspects of coal type and rank variation, and their bearing on hydrocarbon potential in seven wells from the southern Cooper Basin.
- PAUL, C.J. 1980 - Simulation of regional correlated variables in two dimensions.
- HAAS, L. 1980 - A study of the pyrite-calc silicate relationship in the Meningie Well area, Olary Province.*
- LAWRENCE, R.W. 1980 - Stratigraphy and structure in and adjacent to the Talisker Formation (Nairne Pyrite Equivalent) in the eastern Mount Lofty Ranges.
- MOYLE, A.J. 1980 - A fluid inclusion study of the lead-zinc mineralisation of the Pillara Prospect, Western Australia.
- McINTYRE, S.M. 1980 - The hydrocarbon potential of the Jurassic and Lower Cretaceous sediments from five wells in the Eromanga Basin, South Australia.
- MUDGE, W.J. 1980 - Hydrocarbon potential and environmental interpretations of the Jurassic-Lower Cretaceous section in five wells in the Eromanga Basin.
- VINCENT, P.W. 1980 - The geology of the Prism Hill area, northern Flinders Ranges, South Australia.
- THORTON, G. 1980 - Geology, geochemistry and geochronology of the eastern Mt Babbage Block, Mt Painter Province, South Australia.
- PARHAM, G. 1980 - A study of the stratigraphy and geochemistry of the Lower Cambrian Hawker Group in the Arrowie Syncline and the carbonate geochemistry in the vicinity of the Wirrealpa Diapir, Flinders Ranges, South Australia.
- BARTHOLOMAEUS, M.A. 1980 - The geology and geochemistry of the north eastern corner of the Babbage Block, South Australia.*
- WEGMANN, D. 1980 - Pre-Tertiary geology of the Black Hill region in the western Murray Basin, South Australia: with special emphasis on the petrology and geochemistry of the gabbroic rocks.
- BEECROFT, A.S. 1980 - Foraminiferal biofacies of the Tortachilla Limestone and the Blanche Point Formation, Late Eocene, Willunga Sub-basin, South Australia.*
- RICHARDS, N.C. 1980 - Copper and molybdenum mineralisation associated with the Anabama Granite, Olary Region, South Australia.
- YEATES, G.A. 1980 - The geology of the southeastern Mt Babbage Block, South Australia.
- MOELLER, T. 1980 - The petrology and geochemistry of the Reedy Creek granitoids and migmatites.
- JOHNSON, G.J. 1980 - The geology of the Mt Babbage area, northern Mt Painter Province, South Australia: a petrological, geochemical and geochronological study.
- MIELNIK, V. 1981 - The geology of selected areas in the Vestfold Hills, East Antarctica. A structural, geochemical and petrological study.*
- ROBERTSON, A. 1981 - An investigation of the barite deposits in the Artipena area, eastern Flinders Ranges, South Australia.
- TRUELOVE, A.J. 1981 - The geology and geochronology of Herring Island and Commonwealth Bay, Antarctica.*
- WOOD, G. 1981 - Palynological analysis of Eocene coals in the Gambier Embayment near Kingston, South Australia.
- MANN, S.T.E. 1981 - The Lower Cambrian geology and palaeontology of the Nepabunna Syncline, Flinders Ranges, South Australia.*
- BOURNE, J.D. 1981 - Computation of theoretical reflection seismograms for fluid and elastic media.
- FORWARD, K.A. 1981 - A study of resistivity and induced polarisation models with special reference to the determination of dip of tabular ore-bodies.
- GIBBINS, N.M. 1981 - An investigation into the drift between check shot times and methods of correction for well in the Cooper Basin.
- THOMAS, G. 1981 - Modelling of gravity and magnetic data.
- BUSBRIDGE, M.J. 1981 - An analysis of the sedimentary host rocks to mineralisation at the Cattlegrid Orebody, Mt Gunson.*
- HINTON, P.V. 1981 - The Quaternary geology of upper Spencer Gulf.
- MORRISON, R.S. 1982 - The geology, petrology and geochemistry of southwest Saint Francis Island, South Australia.*
- BOWYER, D.G. 1982 - The geology of part of the Harts Range, Northern

Territory, Australia: petrology, geochemistry and structure.*

WILLIAMS, G.D. 1982 - A structural and magnetic fabric study of lithologies flanking the nose of the Myponga - Little Gorge Inlier.*

ORMSBY, W.R. 1982 - A fluid intrusion study of the Cu-Pb-Zn-Ag and W mineralisation of the Jervois Mine area, Northern Territory.*

ROGERS, T.C. 1982 - The interpretation of magnetic and gravity data and its correlation with the geology of the Jervois Mine area, Northern Territory.*

HAINES, P.W. 1982 - Trace fossils and depositional environment of the Cambro-Ordovician Pacoota Sandstone, Amadeus Basin, Central Australia.*

JENKINS, C.C. 1982 - The organic geochemistry of selected source rocks and oil samples from the Eromanga Basin, within the Cooper Basin region of South Australia.

SUTHERLAND, A.J. 1982 - Seismic interpretation of the structure and post-continental breakup stratigraphy of the North Exmouth Plateau.

JONES, S.W. 1982 - Rapid and more accurate terrain adjustments to gravity readings using a digitised relief.

SMITH, R.S. 1982 - The calculation of transient electro-magnetic responses over a layered earth using asymptotic expansion.

GUTHRIE, A.D. 1982 - Seismic interpretation of the Kanowna area of the Cooper Basin including depth conversion and reservoir calculations for the Kanowna Structure.

ROSIER, C.M. 1982 - The geology, geochemistry and geochronology of the northern-most half of Saint Francis Island, Nuyts Archipelago, South Australia.*

NORTON, C.J. 1983 - The geology of the eastern Mt Babbage Block and a study of the genesis of the Jurassic and Cretaceous sediments of the southern Eromanga Basin.

BUICK, I.S. 1983 - The geology, petrology and geochemistry of the Huckitta granodiorite gneiss and

associated granitoids, Harts Range, Central Australia.*

RANKIN, L.R. 1983 - The structural geology and fabric development in the Mt Mabel area of the Harts Range, eastern Arunta Block.*

MURRAY-WALLACE, C.V. 1983 - Quaternary sea-levels and coastal evolution, Broughton River 'Delta', northern Spencer Gulf, South Australia.

PHILLIPS, J.M. 1983 - The geology of the area south of Prospect Hill, Moolawatana, South Australia, with emphasis on regional Cretaceous stratigraphy.

GILBY, A.R. 1983 - Early Permian palynology, stratigraphy and environments of the Stuart Range and Mount Toondina Formation, Arckaringa Basin, South Australia.

GRAY, J.T. 1983 - Biofacies analysis of the marine overburden, Sedan coalfield.*

COWLEY, R.G. 1983 - Velocity filtering of seismic data in the frequency-wavenumber (F-K) domain.

STUART, D. 1983 - A gravity study of faults in the Stansbury region, Yorke Peninsula.

OKE, B. 1983 - Seismic interpretation of the structural and depositional history and hydrocarbon potential of the eastern Arrowrie Basin, South Australia.

LONERGAN, M. 1983 - An investigation of the variation in Kriging variance as a function of a spherical semi-variogram.

JENKINS, G.W. 1983 - Sedimentation and tectonics in the Wilpena Group, Late Adelaidean, Wearing Hills and Stirrup Range areas, eastern Flinders Ranges, South Australia.*

HOPTON, D.L. 1983 - Environmental analysis of the Late Precambrian Appila Tillite equivalent at Depot Flat, southern Flinders Ranges, South Australia.*

CAWLEY, J. 1983 - A geochemical investigation of the Oraparinna Barite Mine, eastern Flinders Ranges, South Australia.

MARTIN, C.J. 1983 - Microfacies and hydrocarbon potential of the top part of the Namur Sandstone Member, Mooga

Formation (Late Jurassic), Strezelecki oil field, Eromanga Basin, South Australia.

TEAKLE, R.P. 1983 - Hydrocarbon potential of the Cambrian succession on Yorke Peninsula, South Australia.*

MARTIN, A. 1983 - The geology and structural geology of the Harts Range Group on the east flank of the Entia Dome, eastern Arunta Block, Northern Territory.

O'LEARY, T. 1983 - Foraminiferal biofacies analysis of the Toolebuc Formation and coeval sediments within the Eromanga Basin.*

OGIERMAN, J.A. 1984 - A study of the petrology, geochemistry and fluid inclusions of dropper structures in the Zinc Corporation Limited mine, Broken Hill, New South Wales, Australia.

WILSON, G.M. 1984 - The structure, metamorphism, sedimentation and mineralisation of the Mt Isa Inlier.

NASH, P.W. 1984 - Structural, metamorphic and geochemical distinctions of low and high grade terrains, Fox mountain area, northwest Queensland.

HALL, D.J. 1984 - The mineralisation and geology of the Patawanta Diapir, northern Flinders Ranges, South Australia.*

MORPHETT, D.G. 1984 - Comparison of the micropalaeontology and structural mineralogy of Upper Eocene sediments from Yorke Peninsula and Willunga Sub-basin, South Australia.*

McPHERSON, L. 1984 - Relationship between Calanna Beds and Adelaidean cover and the effects of syn- and post-sedimentary diapirism, Mt Bayley Range area, Flinders Ranges, South Australia.*

GOSCOMBE, B. 1984 - The structure, metamorphism, petrology and geochemistry of the Paradise Well area in the Harts Ranges, eastern Arunta Block.

SCOTFORD, G.L. 1984 - Sedimentation of Late Proterozoic sediments with syn-depositional diapirism and Delamerian thrust faulting, Warraweena, northern Flinders Ranges, South Australia.*

THOMAS, A.D. 1984 - Petrologic and fluid inclusion study of the Lake Corella

region, Mount Isa Inlier, northwest Queensland.

ALEXANDER, E. M. 1984 - Sedimentology of the Marinoan Type Section: Marino Rocks to Hallett Cove area, South Australia.*

FARRELL, F.L. 1984 - The Archaean geology of the Mt Monger region, Yilgarn Block, Western Australia.*

NICOLSON, S.A. 1984 - A study of carbonate sedimentology of the silver-lead mineralisation of the Ediacara mineral field.

CHRIST, A.L. 1984 - The geology of the Tweedie Gully area.*

TURLEY, M. 1984 - The geology of the area around the Randalls Gold Mine, Yilgarn Block, Western Australia.*

APPERLEY, H.F. 1984 - A palynological study of the Winton Formation in the southwestern Eromanga Basin.

CHANNON, G. 1984 - A structural analysis of the Della-Nappacoongee area, Cooper Basin, South Australia.

CAPON, D. 1984 - A geophysical study of the structure and geological history of the Poldia Basin, South Australia.

GUMLEY, C. 1984 - The wall-resistivity wireline tool as a movable hydrocarbon detector.

KNOWLES, D. 1984 - The structural development of the Murteree Horst, south-western Cooper Basin, South Australia. (Volumes 1 & 2)

SCOTFORD, G.L. 1984 - Sedimentation of Late Proterozoic sediments with syn-depositional diapirism, and Delamerian thrust faulting, Warraweena, northern Flinders Ranges, South Australia.

WONG, MENG CHI 1984 - Seismic refraction interpretation of shallow vibroseis reflection data.

FLENTJE, P.N. 1984 - Structural analysis and tectonics in relation to hydrocarbon accumulation in the Toolachee Block, centred on the Burke-Dullingari Field, south-western Cooper Basin.

TAYLOR, G.J. 1985 - The amphibolite and metasediments of the northwest Weekeroo Inlier, Olary Province.

HILL, L.V. 1985 - Environmental analysis of the Hutton Sandstone to Birkhead Formation transition within the south-western Eromanga Basin.

HOPKINS, C.J. 1985 - Structural geology and stratigraphy of the Para Hills Stonyfell Quartzite Quarry, South Australia.*

ROLLINGS, N.M. 1985 - Micaceous hematite mineralisation and geology of the Warrakimbo Gorge, south-west Flinders Ranges, South Australia.

HOESNI, M.J. 1985 - The granitoids and migmatites of the Monarto area, South Australia.*

JAGODZINSKI, E.A. 1985 - The geology of the Gawler Range Volcanics in the Toondulya Bluff area, and U-Pb dating of the Yardea Dacite at Lake Acraman.*

LEAH, P.A. 1985 - Petrology, structure and stratigraphy of the Willyama Supergroup and Olarian granitoids, west of Plumbago Homestead, South Australia.*

BURN, N.R. 1985 - Thermoluminescence studies of a uraniferous Tertiary palaeochannel, Eyre Peninsula, South Australia.*

STEWART, K.P. 1985 - The petrological significance of calc-silicate and associated gneisses, Inkamulla Bore area, Entia Dome, Harts Range, eastern Arunta Block.*

SULLIVAN, S.J. 1985 - A detailed geological investigation of the Entia gneiss and leucocratic gneiss intrusive, northern Entia Dome, Harts Ranges, eastern Arunta Block.*

BOORD, R. A. 1985 - Sedimentology of the Cambrian upper Kanmantoo Group, southern Fleurieu Peninsula, South Australia.*

AOUKAR, N. 1985 - A geological review of the south west Entia Dome, with emphasis on the Inkamulla granite gneiss, Harts Range, eastern Arunta Block, Northern Territory.*

CREW, B.H. 1985 - The stratigraphy and sedimentology of the Epsilon Formation, Toolachee Field area, southern Cooper Basin, South Australia.

MUNCHENBERG, S.J. 1985 - The geology of the Permian Toolachee

Formation, Dullingari-Burke area, southwestern Cooper Basin.*

BRENCHLEY-GAAL, A. 1985 - The influence of faulting on Late Proterozoic sedimentation and Delamerian tectonic development within the Nuccaleena area, central Flinders Ranges, South Australia.*

LaBLACK, K.L. 1985 - Foraminiferal biofacies analysis of Holocene sediments, Tourville Bay, South Australia.

MEAKIN, S.N. 1985 - Palynological analysis of the Clinton Coal Measures, northern St Vincent Basin, South Australia.

ANDERSON, A.D. 1985 - A geoseismic investigation of carbonate cementation of the Namur Sandstone in the Gidgealpa Field, Eromanga Basin.

BRUMBY, M.M. 1985 - Modelling of gravity and magnetic data to aid the interpretation of a seismic section from the onshore Canning Basin, northwestern Australia.

FLYNN, M.J. 1985 - Two dimensional seismic modelling using the ray tracing technique, applied to the Tickalara Fault, Dullingari- Burke Field, south-western Cooper Basin.

LEWIS, A.M. 1985 - A gravity and magnetic investigation of the Monarto Granite, South Australia.

STOLZ, E.M. 1985 - A magnetics study of the Brachina Formation on southern Fleurieu Peninsula, South Australia.

FREEMAN, A.R. 1985 - The Quaternary geology of the Coffin Bay area, South Australia.

DINNICK, P.M. 1985 - Stratigraphy, sedimentology and palaeontology of a Cambrian molassic sequence, Cape d'Estaing to Point Marsden, northeast coast of Kangaroo Island.*

LEONARD, M. 1986 - Interpretation and an aeromagnetic survey over a shallow sedimentary basin with particular emphasis on spectral analysis.

O'DOWD, R.J. 1986 - An assessment of ordinary and indicator Krigings using simulated datasets.

- SIEBERT, M.G. 1986 - Vertical seismic profiling: a study of the standard zero-offset survey recorded in the Cooper Basin.
- TAYLOR, S.H. 1986 - Techniques and advantages of Kriging seismic time and velocity data.
- ARNDT, L. 1986 - A geoseismic interpretation of the Early Permian Epsilon Formation truncation at the Daralingie Unconformity in the Kidman Complex, Cooper Basin, South Australia.
- GRASSO, C.A. 1986 - The palaeontology of Permian sediments of the Munkaries and Bumby Gas Fields in the southern Cooper Basin utilising genetic sequences of strata.
- O'CLERY, M.D.H. 1986 - The Mesozoic geological evolution of regional hydrocarbon potential in the north-west shelf of Australia.
- FORD, A.J.H. 1986 - Tectonic influence of sedimentation, Central Pepita - Wackett - Nockatunga Trend, Cooper Basin, south western Queensland.
- TURNER, S.P. 1986 - Early Palaeozoic plutonism in western Victoria and eastern South Australia: implications.*
- PARKER, M.D. 1986 - A structural and lithological investigation of the southern Mt Bruna area, with special reference to the Bruna Gneiss, western Entia Dome, Harts Range, Central Australia.*
- MacDONALD, P.J. 1986 - The structural geology of the western margin of the Entia Dome, Harts Range, eastern Arunta Inlier.*
- NYKIEL, A.J. 1986 - The geology, petrology and geochemistry of the area north of Spriggs Creek Bore, western margin of the Entia Dome, Harts Range, eastern Arunta Block, Northern Territory.*
- MICHAELSEN, B.H. 1986 - Organic facies and petroleum-generative potential of the Murta member (Mooga Formation) in the Eromanga Basin, South Australia.
- GEORGI, H.T. 1986 - Lithofacies and depositional environments of the upper Goldwyer Formation central Canning Basin, Western Australia.
- NORTHCOTT, M.J. 1986 - The geology, petrology and alteration associated with the Great Central Copper Mine and Anomaly 3 Polymetallic Gossan, Mount Hope, central-western New South Wales.
- GILES, A. 1986 - The lithology and petrography of the 39 NH51 South East decline, Roxby Downs, South Australia.*
- KRCMAROV, R.L. 1987 - Geology, petrology and geochemistry of the volcanic unit at Olympic Dam, South Australia.
- HOPGOOD, L.S. 1987 - The taxonomy and palaeoclimatic interpretation of Late Mesozoic fossil floras from the south western Eromanga Basin.
- ROHRLACH, B.D. 1987 - The structural geology and mineralisation at the Reedy's Gold Mines, Murchison Goldfield, Western Australia.
- TAYLOR, M.J. 1987 - The metamorphism, petrology and geochemistry of the Ooldea 2 drillcore and the Lake Ifould area.*
- GUM, J.C. 1987 - Geochemistry of the mafic igneous rocks found in Enorama Diapir, central Flinders Ranges, and their relationship to similar rocks found in nearby diapirs and volcanic bodies throughout the Flinders Ranges.*
- WOODGET, A.L. 1987 - The petrology, geochemistry and tectonic setting of basic volcanics on the Stuart Shelf and in the Adelaide Geosyncline, South Australia.*
- WILLIAMSON, G. 1987 - The geology and origin of manganese deposits at Pernatty Lagoon, South Australia.
- NGUYEN, PHUNG THI 1987 - Structural geology and mineralisation of the White Devil Mine, Tennant Creek, Northern Territory.
- RYAN, S.J. 1987 - The geology and genesis of the polymetallic Wagga Tank prospect, Mt Hope, New South Wales.
- SANDO, B.G. 1987 - The geology, petrology and geochemistry of the Tommys Gap area in the Giles Creek Synform, MacDonnell Ranges, south-eastern Arunta Block, Northern Territory.
- ARCHER, G.R. 1987 - Seismic velocity analysis using dynamic programming.
- WOOD, A.G.M. 1987 - A gravity survey of the eastern suburbs and the Adelaide Hills face zone.
- BROWNE, M.V. 1987 - A sedimentary and structural evaluation of the Fly Lake - Broлга Field, Cooper Basin, South Australia.
- SMITH, MICHAEL J. 1987 - Facies interpretation and genetic unit mapping of the Epsilon Formation in the Toolachee Field area, southern Cooper Basin, South Australia.
- SMITH, MELISSA J. 1987 - The metamorphism, petrology and geochemistry of the Ooldea 2 drillcore and the Lake Ifould area.
- STOCKMANN, J.E. 1987 - Seismic stratigraphy of the Tertiary sediments in the Dampier Sub-basin and on the Rankin Platform, Northwest Shelf, Western Australia.
- MacDONALD, D.R. 1988 - The assessment of LANDSAT multi-spectral scanner and thematic mapper for geological investigations using four examples from South Australia.
- MANUEL, J.R. 1988 - Identification, preservation and palaeoenvironmental interpretation of Tertiary coalified wood from South Australia.
- GREGORY, C.T. 1988 - The geology and origin of sedimentary manganese from the Boolcunda, Etna and Muttabee deposits, central Flinders Ranges, South Australia.*
- CROWHURST, P.V. 1988 - The geology, petrology and geochemistry of the Proterozoic Inlier, south of Myponga, Fleurieu Peninsula, South Australia.
- MADIGAN, T.L.A. 1988 - The Rathjen Gneiss: constraints on the tectonic history of the Kanmantoo Group around Springton, South Australia.
- KRASSAY, A.A. 1988 - The geology and genesis of manganese mineralisation at the Iron Prince Mine, Middleback Ranges, South Australia.*
- ZAUNBRECHER, M.L. 1988 - Hydrocarbon source potential of the Upper Roper Group, McArthur Basin, Northern Territory.
- LOELIGER, M. 1988 - The diagenesis of sandstone reservoir rocks in the Upper Roper Group of the Proterozoic McArthur Basin, Northern Territory.

TRUPP, M.A. 1988 - Reservoir development within the Warre Formation, Port Campbell Embayment, onshore Otway Basin, Victoria.

DUCKETT, A.K. 1988 - Sequence stratigraphy outlining the depositional history of the Barrow Group, Barrow Sub-basin, North West Shelf, Western Australia.

GIULIANO, M.F. 1988 - The geology and hydrocarbon potential of the Pedirka Basin.

YONG, L.A. 1988 - A geological study of the basal sandstones in the Grafton Range Field.

HILLOCK, P.M. 1988 - The petrophysics of the Nita Formation, central Canning Basin, Western Australia.

JONES, P.J. 1988 - Evidence for diapirism in the Arckaringa Basin, South Australia.

MENPES, S.A. 1988 - The Mesozoic structural evolution of the Merrimelia Field, southern Cooper-Eromanga Basin, South Australia.

RYAN, P.J. 1988 - The geological history of ATP-370P, northern Drummond Basin, central eastern Queensland, and the influence of the tectonic evolution of north eastern Australia on its development.

SANSOME, A. 1988 - A review of the reservoir sands, Pathawarra Formation in the Daralingie Field area, southern Cooper Basin, South Australia.

HART, J. 1988 - Lower Cambrian corals from Archaeocyathan-Epiphyton clasts within the Moorowie Formation megabreccia, northern Flinders Ranges, South Australia.*

WILLIAMS, D.J. 1989 - The provenance of Middle Eocene to Late Eocene sands, Willunga Embayment, South Australia.*

MOSS, G.D. 1989 - The Port Willunga Formation: Eocene/Oligocene boundary stratigraphy and foraminiferal turnover.*

SELLEY, D. 1989 - The structural geology of the Trepkina Gorge area, a basal part of the Arltunga Nappe Complex, Central Australia: implications for tectonic development of the northern margin of the Amadeus Basin.*

WAWRYK, C.M. 1989 - Strontium and rare earth element geochemistry of barite-fluorite mineralisation at Olympic Dam, South Australia.*

HEIN, K.A.A. 1989 - The geology and genesis of mineralisation at the Tarcoola Goldfield, Tarcoola, South Australia.*

ANNELLS, M.G. 1989 - The Australian tektite strewn field: a possible off-shore impact site and the age paradox of Australites.

GARE, B.J. 1989 - The Early Tertiary Eyre Formation at Reedy Springs and Mt Alford: lithostratigraphy and macroflora.

PELL, S.D. 1989 - Stable isotopic composition of organic matter and co-existing carbonates in the Late Precambrian of the Officer Basin: stratigraphic relationships with neighbouring basins and environmental significance.

TEWKESBURY, P.S. 1989 - Organic chemistry of oil seeps in the Otway Basin.

ASSER, G. 1989 - The stability of kriging to errors in the semivariogram parameters with reference to possible ramifications in financial planning.

BASUTTIL, D.V. 1989 - The two-dimensional simulation of a regionalised variable.

HANSEN, D.V. 1989 - Methods of estimating the global estimation variance where the component parts are derived from local kriging.

KENNEDY, R.J. 1989 - A 3-D gravity and aeromagnetic interpretation of the Black Hill-Cambrai region.

McNEILL, G.M. 1989 - The application of iterative improvement techniques and the Monte Carlo technique of simulated annealing to residual statics estimation.

ROBERTS, S.ST.J. 1989 - An investigation of synthetic seismographs from the Bookabourdie gas/oil field, Cooper Basin.

BELFORD, A.D.McG. 1989 - A seismic sequence stratigraphic study of the 'Weaber Group Sub-basin' in permits WA-128P and WA- 211P, Bonaparte Gulf.

MILLER, L.R. 1989 - Seismic stratigraphic evaluation of s Neocomian submarine fan system, Browne Basin, North West Shelf, Australia.

MONTAGUE, E.T. 1989 - The Eumeralla Formation: sedimentation and potential reservoir development, Otway Basin, South Australia.

PICKAVANCE, D. 1989 - The Mesozoic and Tertiary structural development of the Ceduna Depocentre, Great Australian Bight Basin.

RYAN, S.E. 1989 - Comparison and analysis of single-sweep vibroseis and dynamite seismic data, Cooper and Eromanga Basins, South Australia.

ROBERTSON, B.D. 1989 - The geology, petrology and geochemistry of the volcanics in the Kokatha region, Gawler Ranges, South Australia.

ARNOLD, J.L. 1989 - Petrogenesis of cordierite-orthoamphibole rocks from the Springton region, Mt Lofty Ranges.

WYTHE, S.R. 1989 - A comparative study of petrological and geochemical maturity indicators in Mesozoic and Palaeozoic sediments from Dullingari-1, Eromanga/Cooper Basin.

SERAFINI, K.M. 1989 - Hydrocarbon source rock potential of the eastern Otway Basin: a geochemical and petrological study.

GAUGHAN, C.J. 1989 - Early Cambrian Relief Sandstone, Officer Basin, South Australia: subdivision, diagenesis and porosity-permeability distribution.

EYRE, B. 1989 - Depositional environment and diagenetic controls on porosity and permeability of Early Cambrian basal siliciclastics in the Georgina Basin.

HARVEY, L.M. 1989 - Examination of the aeromagnetic anomaly over the Talisker Mine area on the southern Fleurieu Peninsula, South Australia.

COX, A.F. 1989 - A seismic and petrophysical study of the Pelican Field, Bass Basin.*

ANDERSON, B.W. 1989 - Characterisation of the Cretaceous and Early Tertiary sandstone reservoirs of the Duntroon Basin, offshore South Australia.

- MACK, D.A. 1989 - Sequence and cyclostratigraphic analysis of the Blanche Point Formation, St Vincent Basin, South Australia.*
- CATHRO, D.L. 1989 - Sedimentology of halite evaporites from the Palaeozoic Carribuddy Formation, Canning Basin.
- SCRIMGEOUR, I.R. 1990 - Early Proterozoic metamorphism at the Granites Gold Mine, Northern Territory.
- CLARKE, V.S. 1990 - A structural interpretation of the Goodwyn South/Tidepole area, Rankin Platform, North West Shelf, Western Australia.
- MITCHELL, S.F. 1990 - S-type granite formation at Vivonne Bay, Kangaroo Island.
- JANSYN, J. 1990 - Strato-tectonic evolution of a large subsidence structure associated with the Late Palaeozoic Wonoka Formation at Wilpena Pound, central Flinders Ranges, South Australia.
- NEDIN, C. 1990 - The nature of the Precambrian-Cambrian transition in the northern Flinders Ranges, South Australia.
- FRASER, G.L. 1990 - High T - low P metamorphism in the Kanappa Hill area of the Mount Lofty Ranges, South Australia: implications for thermal evolution.
- MARTIN, N.H. 1990 - A coupled thermo-mechanical model for deformation in high temperature - low pressure metamorphic terrains: implications for the Palmer region, southern Adelaide Fold Belt.
- van der STELT, B.J. 1990 - The geochemistry, petrology and tectonic setting of the Truro Volcanics.
- HOWLETT, P. 1990 - Sedimentation of the Trezona and Elatina Formations in the central Flinders Ranges.
- COCK, G.C. 1991 - Comparisons between methods of simulating a regionalised variable in two dimensions.
- ROGERS, J. 1991 - The structure of the Talisker area, southern Fold Belt, Fleurieu Peninsula, South Australia.
- WOZGA, M. 1991 - Investigation of local fold plunge reversals present at Pasmenco's southern operations, Broken Hill, New South Wales, Australia.
- PISTERS, D. 1991 - Isotopic plateau variations within marbles: an example from the Milendella Limestone, South Australia.
- FRICK, L.R. 1991 - Carbon and oxygen isotopes of the Late Proterozoic Elatina and Nuccaleena Formations, southern Flinders Ranges, South Australia.
- TARRABBIA, P. 1991 - Sedimentology and diagenesis of sandstones within the Lower Jurassic Cattamarra Coal Measures, North Perth Basin, Western Australia.
- FERRIS, G.M. 1991 - Kaolinisation in the Streaky Bay area, western Eyre Peninsula.

BUTTER, A.R. 2018 - A palaeoecological investigation of the small vertebrate mammals of Fossil Chamber, Victoria Fossil Cave, Naracoorte, SA.

CASSIDY, E. 2018 - Tectonic geography of the lower Roper Group, McArthur Basin, Northern Australia using detrital geochronology and shale geochemistry.

GEORGE, C.M. 2018 - Late Cambrian adakitic granite at Kinchina Quarry: Implications for the evolution of the Delamerian Orogen.

GRIFFIN, A. 2018 - U-Pb geochronology & geochemistry of apatite within the Marshall Shear Zone of the Ernest Henry Deposit, NW Queensland.

HARLAND, A.N. 2018 - Tracing local hydrology and water source use of *Eucalyptus largiflorens*, on the Calperum Floodplain, using Strontium, Oxygen and Deuterium isotopes.

HIGGIE, D. 2018 - Tectonic provenance of the Palaeoproterozoic Plum Tree Volcanics: implications for the initiation of the McArthur Basin.

KIMPTON, B. 2018 - The geological relationship between Kanmantoo Cu-Au deposit mineralisation, hydrothermal metasomatism and igneous intrusives.

MCDONALD, S.A. 2018 - Maritime controls on coastal east Asian climate during the Holocene: evidence from the sediments of Lake Motosu, Japan.

OTASEVIC, A. 2018 - Thermal history of the Junggar Alatau (SE Kazakhstan, NW China): insights from apatite fission track thermochronology.

PRIYA 2018 - Reconstructing the Late Pleistocene climate sequence at Alexandra Cave, Naracoorte, using single-grain optically stimulated luminescence dating and palaeoenvironmental proxies.

REDDEN, G. 2018 - Textural and compositional variation of tuff marker beds at the Mount Isa and George Fisher deposits; implications for origin and mineralisation.

SHANNON, A.V. 2018 - Understanding the complexities of Proterozoic redox using carbon, nitrogen and trace metal composition of organic rich shales.

SIMPSON, A.D.W. 2018 - Calcite and apatite geochronology of Thailand and Myanmar.

SUBARKAH, D. 2018 - The forgotten Mesoproterozoic of northern Australia: a chemostratigraphy and detrital zircon study of the Favenc Package, greater McArthur Basin.

TAVASCI, P.R. 2018 - Palaeoecology and preliminary taphonomy of the Robertson Cave entrance chamber fauna, Naracoorte.

TOLEDO, G.E. 2018 - Chromium isotope constraints on the Mid-Proterozoic redox: evidence from $\delta^{53}\text{Cr}$ of carbonates from the greater McArthur Basin, northern Australia.

TURNER, N. 2018 - Palaeontological investigation of a Pleistocene vertebrate assemblage from Specimen Cave, Naracoorte, South Australia.

WONG, Y.H. 2018 - Detrital constraints on the southern Amadeus Basin: new analysis of zircon and apatite samples for detrital provenance and thermal evolution.

AXFORD, I.C. 2019 - Surface-groundwater hydrological interaction: an isotope geochemical case study on the Bird in Hand mine South Australia.

BOUTSALIS, C. 2019 - Exhumation history of the Qilian Shan, constrained by apatite U-Pb & fission track thermochronology.

BROWN, J.W. 2019 - Structure and stratigraphy of the Sherbrook Supersequence: 3-D seismic analysis of growth faults in the offshore Otway Basin.

CRUZ, C.J. 2019 - Geochronological analysis of the McArthur and Tawallah Groups, McArthur Basin: age constraints, provenance and implications for basin evolution.

DEAN, C.E. 2019 - Lake carbonate geochemistry as a proxy for paleohydrology: a validation-in-time at West Basin Lake, Victoria.

HILL, J. 2019 Geochemical evolution and alteration styles of the Gawler Range Volcanics, South Australia.

KUYS, J.H. 2019 - An investigation into chalcopyrite and dolerite dykes at the George Fisher Pb-Zn-(Ag) Mine, NW Queensland, Australia.

LIEBELT, S.R. 2019 - Testing the redox coupling between Cr and N isotopes in modern and ancient redox-stratified depositional systems: the Coorong Lagoon and the Greater McArthur Basin.

LOWCZAK, C.R. 2019 - Copper isotope method development for determining the source of mineralised provinces.

McFADZEAN, G. 2019 - Geochemical analysis of the McArthur and Tawallah Groups, McArthur Basin: chemostratigraphy & palaeo-redox proxies using shales and carbonates.

McRAE, C. 2019 - Floods and droughts in the Murray-Darling Basin: new insights from Lake Alexandrina.

MORGAN, B. 2019 - Crustal evolution and exploration potential of Delamerian southeastern South Australia.

ROE-SIMONS, K.M. 2019 - Methane flux determination in an urban wetland via Eddie Covariance.

SANSO, C.A.R. 2019 - Compositional controls on the thermal conductivity of metamorphic rocks.

SCARABOTTI, L. 2019 - C, Sr and Cr isotope constraints on the depositional environment and palaeo-redox of the Neoproterozoic Fortescue Group, Pilbara Craton, WA.

SYMONDS, G.N. 2019 - Forsteritic marble and Mg-Skarn from the Coober Pedy Ridge Subdomain, Gawler Craton, South Australia.

WARREN, C. 2019 - Exhumation history of the metal-rich Chinese Altai: insights from apatite fission track thermochronology.

WATSON, J.C. 2019 - Cambrian evolution of the earth's system: integrated chemostratigraphy and

geochronology of Cambrian sequences in the East Warburton Basin, South Australia.

ATKINS, A.J. 2020 - Soil carbon isotopic proxies for determining the photosynthetic pathway of floral communities: a method inter-comparison.

CHUA, A.J. 2020 - A palaeontological and geochemical analysis of vertebrate fossils from a Late Quaternary cave deposit in southeastern Australia with a particular focus on bone surface coatings.

DANGERFIELD, E. 2020 - Oxygen and carbon stable isotope ratios of kangaroo tooth enamel.

de GROOT, A.M. 2020 - Age, tectonic geography and provenance of the Renner Group, Tomkinson Province, Northern Territory.

FORREST, B.J. 2020 - Assessing tectonic plate reconstruction models using trends in global geochemical data.

GROOBY, C.C. 2020 - Trace element geochemistry and geochronology of an IOCG mineral system: a case study from the Vulcan Prospect, South Australia.

KELLER, P. 2020 - Neoproterozoic interglacial geochemistry & sedimentology of the Tapley Hill formation in Kingsmill Creek, Arkaroola, South Australia.

LESLIE, D.J. 2020 - Composition of the volcanic sedimentary breccia at the Carrapateena iron-oxide-copper-gold deposit, SA.

LINKE, M.L. 2020 - Thermal 'ice'-ostasy: using remote geophysical data to model Antarctic surface heat flow.

LORINCZ, B.E. 2020 - Bone-appétit! the influence of microorganisms on bone preservation in caves at Naracoorte, South Australia.

MACDONALD, K. 2020 - The timing of high temperature metamorphism at the Snaefell magnetite deposit, South Australia.

MARCH, S.N. 2020 - Timescales of continental subduction: constraints from ultrahigh-pressure metapelites in the western gneiss region, Norway.

NORTH, B. 2020 - The geochemistry of rare earth element-bearing minerals and their relationship to copper sulphide mineralisation at the Carrapateena deposit, south Australia.

POWER, R. 2020 - The formation history and palaeoenvironmental significance of sedimentary cone deposits in Smoke-tortoise Cave, Naracoorte, South Australia.

ROMYN, T.L. 2020 - Felsic metastability during continental subduction: the Norwegian western gneiss complex as a case study.

ROWE, W.J. 2020 - Sr-Nd isotopic characteristics of the Kanmantoo Cu-Au deposit.

VAN DER WOLFF, E.J. 2020 - Detrital provenance and geochronology of the Burra, Umberatana and Wilpena Groups in the Mount Lofty Ranges.

WOOLSTON, Z. 2020 - A coupled radiogenic ($^{87}\text{Sr}/^{86}\text{Sr}$) and stable ($^{88}\text{Sr}/^{86}\text{Sr}$) strontium isotope approach to reconstruct past changes in water mixing and salinity in the Coorong Lagoon, South Australia.

BIRCH, F. 2021 - Iron mobility in shallow hydrothermal systems: insights from hematite-quartz veins and breccias from Arkaroola.

BURKE, T.D. 2021 - Geochronology of pallasite meteorites: first in-situ Lu-Hf ages and Pu fission track methodology refinements.

BOEGHEIM M.J.F. 2021 - The petrogenesis of intracontinental peraluminous rhyolites in the northern Peak Ranges province, central Queensland.

CAMERON, F. 2021 - Topographic reconstructions of the Trans-Gondwanan mountain belt.

CRESPAN, C. 2021 - Geochemical variation of copper sulphides within the Carrapateena deposit, South Australia.

FENN, T. 2021 - Reconstructing lake hydrological variability using satellite imagery: A case study for western Victoria, Australia.

HE, Y. 2021 - Curnamona Cube: 3D lithospheric architecture of a Proterozoic Province.

HIGGINS, D.J. 2021 - Petrogenesis of magmas in the Antillanca volcanic complex (AVC) (s. Chile) over space and time.

HILL, A.M. 2021 - Hunting palaeorivers in the Gippsland Basin using 3d seismic datasets.

LEWIS, E. 2021 - Bottom-up exploration: imaging electrical resistivity of a mineral system from source to sink.

NIXON, F.C. 2021 - Clumped isotope analysis of central Australian carbonates: A potential palaeoclimate proxy for Australia's arid interior.

PARK, J. 2021 - Proximal hydrothermal alteration of the Carrapateena deposit.

PETERS, L. 2021 - A peek into the mantle: primary magma generation beneath the Peak Range, central Queensland.

PRING, O.T. 2021 - The fractionation of copper isotopes in granitic and mafic intrusions: mafic enclaves in the Mannum granite, a case study.

RASCH, S. 2021 - Dating and characterising a newly discovered sedimentary basin in the east Tennant region.

BROWNE, J.M. 2022 - Paragenesis of hydrothermal palladium in the Vulcan Iron Oxide Copper Gold Prospect.

CHALMERS, S.C. 2022 - Zircon and rutile provenance of the heavy mineral sands at the Copi North Deposit, Murray Basin, NSW.

CHARLWOOD, J. 2022 - Tracing of uranium isotopes and man-made radionuclides in contaminated soils at the nuclear testing site at Maralinga, SA.

CLEGG, E. 2022 - Carrapateena's silver lining: geochronology and the distribution of Ag in sulphide minerals.

COLLINS, B.N. 2022 - Paragenesis of the Dazzler heavy rare earth (HREE) and uranium deposit, Browns Range, Western Australia.

DALTON, C.L. 2022 - Copper movement in active volcanic systems.

FAULKNER, C.E. 2022 - Chromium and radiogenic strontium isotopes in the Earth's upper mantle and oceanic crust:

Insights from the Semail Ophiolite, Oman.

IMBROGNO, D.N. 2022 - Architecture and thermochronology of the base Adelaidean unconformity at Arkaroola.

JOHNS-MEAD, L.Y. 2022 - What is Nundorite? A petrological and geochemical study of an unusual rock of the Mount Arrowsmith Volcanics.

KAMLEH, C. 2022 - Kangaroo Island climate variation over the past 7000 years reconstructed using lake sediment.

ROBERTSON, B. 2022 - The geochronology, palaeoenvironments and palaeontology of Robertson Cave inner chamber, Naracoorte.

ROWLAND, J.R. 2022 - Unconformity-style rare earth element mineralisation along the Watts Rise-Castella Trend, Tanami Region, Western Australia.

SCHULTZ, M. 2022 - Inferring regolith history via in situ Rb-Sr dating, mineral mapping, and elemental analysis at the 'Avon River Critical Zone Observatory, Western Australia.
