

Pathway to major in Soil Science

Year 1 / Level I (not more than 30 units)

S1	† GEOLOGY 1103 Building a Habitable Planet	‡ BIOLOGY 1101 Biology I: Molecules, Genes & Cells	Ω CHEM 1100 Chemistry IA or ** Ω CHEM 1101 Foundations of Chemistry IA	SCIENCE 1300 Principles & Practice of Research (Advanced) I
S2	† GEOLOGY 1100 Earth's Interior I	‡ BIOLOGY 1202 Biology I: Organisms	Ω CHEM 1200 Chemistry IB or ** Ω CHEM 1201 Foundations of Chemistry IB	Approved Level I Elective

Year 2 / Level II

S1	SOIL&WAT 2500/2500WT Soil and Water Resources II	‡ PLANT SC 2510WT Foundations in Plant Science II	GEOLOGY 2500 Sedimentary Geology II or Approved Level II Elective	Approved Level II Elective
S2	Approved Level II Elective	Approved Level II Elective	Approved Level II Elective	SCIENCE 2300 Principles & Practice of Research (Adv) II [or Semester 1]
* Global Experience: The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				

Year 3 / Level III (at least 24 units)

S1	SOIL&WAT 3017WT Soil & Water: Management & Conservation III	SOIL&WAT 3016WT Soil Ecology & Nutrient Cycling III	Approved Level III Elective	§Ω SOIL&WAT 3004WT Environmental Toxicology & Remediation [Winter School] or Approved Level III Elective
* Global Experience: The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
S2	§ † GEOLOGY 3505 Earth Systems History III or Approved Level III Elective	§ ‡ PLANT SC 3505WT Soil and Plant Nutrition III or Approved Level III Elective	Approved Level III Elective	SCIENCE 3100 Principles & Practice of Research (Adv) III

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

Key

Core Course	Elective Course	Course for Major
--------------------	-----------------	------------------

** Students who successfully complete CHEM 1101 and CHEM 1201 and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

† GEOLOGY 2500 Sedimentary Geology II, is listed as a pre-requisite for GEOLOGY 3505 Earth System History II. GEOLOGY 2500 Sedimentary Geology II has assumed knowledge of GEOLOGY 1100 Earth's Interior I or GEOLOGY 1103 Building a Habitable Planet.

‡ PLANT SC 2510WT Foundations in Plant Science, is listed as assumed knowledge for PLANT SC 3505WT Soil and Plant Nutrition III. PLANT SC 2510WT Foundations in Plant Science II requires BIOLOGY 1101 Biology I: Molecules, Genes and Cells or BIOLOGY 1202 Biology I: Organisms as a prerequisite.

§ You must complete **at least one** of these courses in addition to SOIL&WAT 3017WT & SOIL&WAT 3016WT to complete the major.

Ω SOIL & WATER 3004WT Environmental Toxicology & Remediation has the prerequisite of CHEM 1100 Chemistry 1A or CHEM 1101 Foundations of Chemistry 1A and CHEM 1200 Chemistry 1B or CHEM 1201 Foundations of Chemistry 1B.

Enrolment Advice – General

- It is your responsibility to ensure you are correctly enrolled. Enrolment into courses outside of the Study Plan and Enrolment Advice listed could affect your eligibility to graduate.
- A total of **72 units** are required to complete Bachelor of Science (Advanced) program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- A candidate may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#). If in doubt consult the Faculty Office for advice.
- No level III course may be used to meet the requirements of more than one major. (For example, if Soil Ecology and Nutrient Cycling is used to qualify for a Soil Science major, it cannot also be used to qualify for an Ecology Major).
- Please consult your [Program Coordinator](#) or contact the Faculty of Sciences Office for advice.

Pathway to major in Soil Science

Complimentary Majors

The following majors are often pursued by students as well as the above major, as a complimentary field:

- Chemistry
- Evolutionary Biology
- Ecology
- Geology
- Geophysics

Enrolment Advice – Courses

- Only ONE of BIOLOGY 1201 Biology I: Human Perspectives or BIOLOGY 1202 Biology I: Organisms may be presented towards the Bachelor of Science.
- The following courses cannot be presented towards the Bachelor of Science:
 - ANAT SC 1102 Human Biology IA
 - ANAT SC 1103 Human Biology IB
 - COMP SCI 1003 Internet Computing

Electives and Broadening

You may complete up to 9 units of 'Non-Science' elective courses at Level I or Level II. Of these courses, a maximum of 6 units can be chosen at Level I from other Faculties of the University. Note that no courses at Level III can be chosen from other Faculties of the University

You must complete Elective courses to fulfil the requirements of your Program: Please refer to your Program Rules for electives and all other requirements <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other faculties, course restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

Variations for students who commenced in or prior to 2013

- Level III: GEOLOGY 3504 Basins, Sediments and Regolith III, has been replaced by GEOLOGY 3505 Earth Systems History III.
- Level I core course SCIENCE 1100 Principles & Practice of Science and SCIENCE 1200 Principles & Practice (Advanced) 1, has now been replaced by SCIENCE 1300 Principles & Practice of Research (Advanced) I.

Variations for students who commenced in or prior to 2011

- Level III: GEOLOGY 3014 Environmental Geoscience Applications III and PLANT SC 3004WT Mineral Nutrition of Plants III, have been replaced in the major by GEOLOGY 3505 Earth Systems History III and PLANT SC 3505WT Soil and Plant Nutrition III.

Global Experience

The University of Adelaide is committed to offering its students the opportunity to study overseas through a Global Learning Experience. This experience is available in a wide range of degrees and can include student exchange (for either one or two full semesters), study tours, internships and placements. There are many exciting opportunities in Europe, Asia, the Americas, Africa, and Oceania ranging from a few weeks to a full academic year.

* The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find Global Learning opportunities available in your study area click [Global Experiences](#).
