

## Pathway to major in Chemistry (Double)

Year 1 / Level I (not more than 30 units)				
S1	# CHEM 1100 Chemistry IA <b>OR</b> #† CHEM 1101 Foundations of Chemistry IA	<a href="#">Approved Level I Elective</a>	<a href="#">Approved Level I Elective</a>	<b>SCIENCE 1300 Principles &amp; Practice of Research (Advanced) I</b>
S2	# CHEM 1200 Chemistry IB <b>OR</b> #† CHEM 1201 Foundations of Chemistry IB	<a href="#">Approved Level I Elective</a>	<a href="#">Approved Level I Elective</a>	<a href="#">Approved Level I Elective</a>
Year 2 / Level II				
S1	<a href="#">CHEM 2510 Chemistry IIA</a>	<a href="#">CHEM 2530 Environmental &amp; Analytical Chemistry II</a>	<a href="#">Approved Level II Elective</a>	<a href="#">Approved Level II Elective</a>
S2	<a href="#">CHEM 2520 Chemistry IIB</a>	<a href="#">CHEM 2540 Medicinal &amp; Biological Chemistry II</a>	<a href="#">Approved Level II Elective</a>	<b>SCIENCE 2300 Principles &amp; Practice of Research (Adv) II [or Semester 1]</b>
*Global Experience: The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
Year 3 / Level III (at least 24 units)				
S1	<a href="#">CHEM 3111 Chemistry III (6 units)</a>	‡ Level III Chemistry Course or <a href="#">Approved Level III Elective</a>	‡ Level III Chemistry Course or <a href="#">Approved Level III Elective</a>	
*Global Experience: The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
S2	‡ Level III Chemistry Course or <a href="#">Approved Level III Elective</a>	‡ Level III Chemistry Course or <a href="#">Approved Level III Elective</a>	‡ Level III Chemistry Course or <a href="#">Approved Level III Elective</a>	<b>SCIENCE 3100 Principles &amp; Practice of Research (Adv) III</b>

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

### Key

Core Course	Elective Course	Course for Major

# Check [Course Planner](#) or with the Sciences Service Hub to ensure you meet the pre-requisites prior to enrolling into these courses.

† Students who successfully complete CHEM 1101 Foundations of Chemistry IA and CHEM 1201 Foundations of Chemistry IB and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

‡ You must complete **courses to the value of at least 9 units** from these courses in addition to CHEM 3111 Chemistry III and SCIENCE 3100 Principles & Practice of Research to complete the Major:  
CHEM 3560 Molecular Structure Determination III, 6 units (Semester 1)  
CHEM 3211 Synthesis of Materials III, 3 units (Semester 2)  
CHEM 3212 Fundamentals of Materials III, 3 units (Semester 2)  
CHEM 3213 Advanced Synthetic Methods III, 3 units (Semester 2)  
CHEM 3214 Medicinal & Biological Chemistry III, 3 units (Semester 2)

### Enrolment Advice – General

- It is your responsibility to ensure you are correctly enrolled. Enrolment into courses outside of the Study Plan and Enrolment Advice listed could affect your eligibility to graduate.
- A total of 72 units are required to complete Bachelor of Science (Advanced) program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- A candidate may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#).
- No level III course may be used to meet the requirements of more than one major. (For example, if *Soil Ecology and Nutrient Cycling* is used to qualify for a Soil Science major, it cannot also be used to qualify for an Ecology Major).
- Please consult your [Program Coordinator](#) or contact the Sciences Service Hub for advice.

## Pathway to major in Chemistry (Double)

### Complementary Majors

This is an extended major and it is normally not possible to fit in sufficient units at Level III to also qualify for a second major.

### Enrolment Advice – Courses

- Only ONE of BIOLOGY 1201 Biology I: Human Perspectives or BIOLOGY 1202 Biology I: Organisms may be presented towards the Bachelor of Science.
- The following courses cannot be presented towards the Bachelor of Science:
  - ANAT SC 1102 Human Biology IA
  - ANAT SC 1103 Human Biology IB
  - COMP SCI 1003 Internet Computing

### Electives and Broadening

You may complete up to 9 units of 'Non-Science' elective courses at Level I or Level II. Of these courses, a maximum of 6 units can be chosen at Level I from other Faculties of the University. Note that no courses at Level III can be chosen from other Faculties of the University

You must complete Elective courses to fulfil the requirements of your Program: Please refer to your Program Rules for electives and all other requirements <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other faculties, course restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

### Variations for students who commenced in or prior to 2014

- Level III: CHEM 3530 Environmental and Analytical Chemistry III, and CHEM 3540 Research Methods in Chemistry III, are courses permitted to be counted towards the major. These courses are incompatible with CHEM 3560 Molecular Structure Determination III.
- Level I: Core course SCIENCE 1100 Principles & Practice of Science and SCIENCE 1200 Principles & Practice of Science (Advanced) I, has now been replaced by SCIENCE 1300 Principles & Practice of Research (Advanced) I.

### Global Experience

The University of Adelaide is committed to offering its students the opportunity to study overseas through an International Experience. This experience is available in a wide range of degrees and can include student exchange (for either one or two full semesters), study tours, internships and placements. There are many exciting opportunities in Europe, Asia, the Americas, Africa, and Oceania ranging from a few weeks to a full academic year.

\* The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find opportunities available in your study area click [Study Overseas](#).
