The Nancy Webb Prize in Mathematics

PRIZE RULES

Establishment
This prize has been established under an agreement between the University and the Australian Federation of University Women SA Inc. Trust Fund, which has agreed to provide to the University an annual prize in the Mathematical Sciences, in recognition of the contribution of Nancy Webb to Mathematics and Mathematics education in South Australia. The purpose of the prize is the recognition and encouragement of talented women in the Mathematical Sciences (Pure Mathematics, Applied Mathematics and Statistics).

In support of the prize the Australian Federation of University Women SA Inc. Trust Fund shall provide to the University as a result of a pledge request, an annual amount equivalent to $400.00 (GST free).

Value
The value of the Prize will be $400.00 per year until otherwise determined by the University after discussions with the contributor.

Eligibility
The prize will be awarded annually by the University to a female student who meets the following criteria.

a) The student must have completed a Major in one of Applied Mathematics, Pure Mathematics or Statistics.
b) The work for the Major may have been spread over more than one year, but the student must have completed at least one of the courses contributing to that Major in the year for which the prize is awarded.

Selection of Candidate
The Head of the School of Mathematical Sciences or nominee will award the prize to the eligible student with the highest average score in the Major specified above.

If there is more than one candidate of equal merit, then the prize shall be shared equally. No one student shall receive the prize more than once.

Variations
The University may vary the rules from time to time in a manner consistent with the original objectives of the prize.
