

Pathway to major in Physics (Geophysics) double major

Year 1 / Level I (not more than 30 units)				
S1	# PHYSICS 1100 Physics IA	# MATHS 1011 Mathematics IA	** Δ Approved Level I Elective	SCIENCE 1300 Principles & Practice of Research (Advanced) I
S2	# PHYSICS 1200 Physics IB	# MATHS 1012 Mathematics IB	^ GEOLOGY 1100 Planet Earth	Approved Level I Elective
Year 2 / Level II				
S1	PHYSICS 2510 Physics IIA	MATHS 2101 Multivariable & Complex Calculus	MATHS 2102 Differential Equations	Approved Level I or Level II Elective
S2	† PHYSICS 2520 Physics IIB	PHYSICS 2534 Electromagnetism II	‡ PHYSICS 2532 Classical Physics II	SCIENCE 2300 Principles & Practice of Research (Adv) II [for Semester 1]
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
Year 3 / Level III (at least 24 units)				
S1	# PHYSICS 3542 Physics III (6 units)		^ GEOLOGY 3022 Geophysics IIIA: Potential Fields and Geothermics	Approved Level III Elective
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
S2	PHYSICS 3002 Experimental Physics III	§ Approved level III Physics (Geophysics) double major courses	^ GEOLOGY 3023 Geophysics IIIB: Electromagnetics and Seismology	SCIENCE 3100 Principles & Practice of Research (Adv) III
Year 4/ Level IV (24 units)				
Courses to the value of 24 units, chosen from the Bachelor of Science (Honours) . A Research Pathway or Professional Pathway must be chosen in a specialisation area.				

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

Key

Core Course	Elective Course	Course for Major
-------------	-----------------	------------------

Check [Course Planner](#) or with the Sciences Service Hub to ensure you meet the pre-requisites prior to enrolling into these courses.

** Students who successfully complete CHEM 1101 Foundations of Chemistry IA and CHEM 1201 Foundations of Chemistry IB and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

Δ COMP SCI 1012 or COMP SCI 1011 or COMP SCI 1102 or COMP SCI 1015 is a pre-requisite for PHYSICS 3534 Computational Physics III

† PHYSICS 2520 is a pre-requisite for PHYSICS 3540 Optics and Photonics III and PHYSICS 3002 Experimental Physics III.

Enrolment Advice

- A total of **96 units** are required to complete Bachelor of Science program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- A candidate may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#).
- No level III course may be used to meet the requirements of more than one major. (For example, if *Soil Ecology and Nutrient Cycling* is used to qualify for a *Soil Science* major, it cannot also be used to qualify for an *Ecology* Major).
- Please consult your [Program Coordinator](#) or contact the Sciences Service Hub for advice.

Pathway to major in Physics (Geophysics) double major

‡ PHYSICS 2532 Classical Physics II is listed as assumed knowledge for PHYSICS 3534 Computational Physics.

§ You must complete **at least one** of these approved level III courses:

PHYSICS 3532 Atmospheric and Astrophysics III (Semester 1)

‡ Δ PHYSICS 3534 Computational Physics III (Semester 1)

† PHYSICS 3540 Optics and Photonics III (Semester 2)

in addition to PHYSICS 3542, PHYSICS 3002, GEOLOGY 3022 and GEOLOGY 3023 to complete the major.

Electives and Broadening

You may complete up to 9 units of 'non-science' elective courses at Level I and/or Level II. Of these courses a maximum of 6 units can be chosen at Level I. Please refer to your Program Rules for electives and all other requirements, including details on how to meet broadening experience <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other Faculties, course restrictions and pre-requisites, search the course planner:

<https://access.adelaide.edu.au/courses/search.asp>

- Under the University's [Student Charter](#), it is the student's responsibility to enrol correctly in accordance with the University's program requirements, course prerequisites and University procedures, and ensure that your enrolment will enable you to graduate in your chosen program. If this study plan is unclear or contains an error, it is recommended you seek confirmation and advice from the Sciences Service Hub at the earliest opportunity.

Enrolment Errors

Please [submit the relevant form](#) to request a unit-overload waiver, prerequisite waiver, timetable clash resolution or a course/class full request.

Global Experience

* We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find opportunities available in your study area click [Study Overseas](#).
